**Spatial Database Transfer Standards** H. Moellering, 2013-10-22 Since the 1960 s individuals and organisations throughout the world have been building geographic databases used in conjunction with geographic hardware and software systems to collect analyse display and archive digital data Through the years it was recognised that efficiencies could be gained if the geographic database built by one group could be used by multiple users across different computer systems and formats Therefore it was acknowledged that spatial database transfer standards were needed to facilitate the exchange and transfer of digital geographic data Throughout the 1980 s several organisations worldwide began working on the problem of producing spatial database transfer standards As

this work was initiated research workers began to informally compare notes and developments The International Cartographic Association ICA recognising the worldwide importance of standards organised a Standards Working Group The initial goal of this working group was to produce a monograph reporting on the present state of development in digital database transfer standards This book is a unique collection of reports by individual nations and international organisations that describe existing geographic standards and summarize efforts to develop geographic database transfer standards worldwide

**Scientific and Technical Aerospace Reports** ,1985 **Nuclear Science Abstracts** ,1976 [Western Japaneseness: Intercultural Translations of Japan in Western Media](#)

Frank Jacob, Bruno Surace, 2021-03-02 Our images of non Western cultures are often based on stereotypes that are replicated over the years These stereotypes often appear in popular media and are responsible for a pre set image of otherness The present book investigates these processes and the media representation of otherness especially as an artificial construct based on stereotypes and their repetition in the case of Japan Western Japaneseness thereby illustrates how the Western image of Japan in popular media is rather a construct that in a way replicated itself instead of a more serious encounter with a foreign and different cultural context This book will be of great value to students and academics who hold interest in media studies Japanese studies and cultural studies It will also appeal to a broader audience with interests in

Japan more generally
