Plunkett, 2006-12-30

There are few industry sectors in the world today with more potential than renewable and hydrogen energy. Clean green and renewable energy technologies are receiving immense emphasis from investors, environmentalists, governments, and major corporations. Today's high prices for crude oil, coal, and natural gas will increase the demand for renewables of all types. A wide variety of technologies are being researched, developed, and implemented on a global basis, from Stirling engines to wind power from advanced nuclear plants to geothermal and fuel cells. Our analysis also includes tar sands, oil sands, oil shale, fuel cells, clean coal, distributed power, energy storage, biofuels, and much more. You'll find a complete overview, industry analysis, and market research report in one superb value-priced package. It contains thousands of contacts for business and industry leaders, industry associations, Internet sites, and other resources. This book also includes statistical tables, an industry glossary, and thorough indexes. The corporate profiles section of the book includes our proprietary in-depth profiles of the 250 leading companies in all facets of the alternative renewable and hydrogen energy business. Here you'll find complete profiles of the hot companies that are making news today, the largest, most successful corporations in the business. Purchasers of either the book or PDF version can receive a free copy of the company profiles database on CD-ROM, enabling key word search and export of key information, addresses, phone numbers, and executive names with titles for every company profiled.
