 Lewis David K. Lewis, 2020-10-29 David Kellogg Lewis 1941 2001 was one of the most influential philosophers of the  
 twentieth century He made significant contributions to almost every area of analytic philosophy including metaphysics  
 philosophy of language philosophy of mind and philosophy of science and set the agenda for various debates in these areas  
 which carry on to this day In several respects he remains a contemporary figure yet enough time has now passed for  
 historians of philosophy to begin to study his place in twentieth century thought His philosophy was constructed and refined  
 not just through his published writing but also crucially through his life long correspondence with fellow philosophers  
 including leading figures such as D M Armstrong Saul Kripke W V Quine J J C Smart and Peter van Inwagen His letters  
 formed the undercurrent of his published work and became the medium through which he proposed many of his well known  
 theories and discussed a range of philosophical topics in depth A selection of his vast correspondence over a 40 year period is  
 presented here across two volumes As metaphysics is arguably where Lewis made his greatest contribution this forms the  
 focus of Volume 1 Arranged under the broad areas of Causation Modality and Ontology the letters offer an organic story of  
 the origins development breadth and depth of his metaphysics in its historical context as well as a glimpse into the influence  
 of his many interlocutors This volume will be an indispensable resource for contemporary metaphysics and for those  
 interested in the Lewisian perspective The Works of Jeremy Bentham, Now First Collected Jeremy Bentham, 1838
