Romano-British Settlement and Cemeteries at Mucking Sam Lucy, Christopher Evans, 2016-11-30. Excavations at Mucking, Essex, between 1965 and 1978 revealed extensive evidence for a multiphase rural Romano-British settlement, perhaps an estate center and five associated cemetery areas. 170 burials with different burial areas reserved for different groups within the settlement. The settlement demonstrated clear continuity from the preceding Iron Age occupation with unbroken sequences of artefacts and enclosures through the first century AD, followed by rapid and extensive remodeling which included the laying out of a Central Enclosure and an organized water supply with wells, accompanied by the start of large-scale pottery production. After the mid-second century AD, the Central Enclosure was largely abandoned, and settlement shifted its focus more to the Southern Enclosure system, with a gradual decline through the 3rd and 4th centuries, although continued burial pottery and artefactual deposition indicate that a form of settlement continued, possibly with some low-level pottery production. Some of the latest Roman pottery was strongly associated with the earliest Anglo-Saxon style pottery, suggesting the existence of a terminal Roman settlement phase that essentially involved an Anglo-Saxon community. Given recent revisions of the chronology for the early Anglo-Saxon period, this casts an intriguing light on the transition with radical implications for understandings of this period. Each of the cemetery areas was in use for a considerable length of time. Taken as a whole, Mucking was very much a componentized place complex; it was its respective parts that fostered its many cemeteries, whose diverse rites reflect the variability and roles of the settlement's evidently varied inhabitants.

Acing the New SAT I Math, 2004-09. Acing the New SAT I Math is a test prep guide for the math sections of the new SAT I. The book takes a learning fundamentals approach that sets it apart from other SAT materials. Written by a test prep teacher of ten years, Acing focuses on solid teaching and practice to help students master all the skills they need for the SAT I math. The book covers all the math topics found on the new SAT I, organized by subject into twenty chapters. Each chapter contains a tutorial, exercise set, and solutions. Three full-length practice tests are provided at the end of the book. Because Acing's emphasis is learning and mastering math concepts, the book includes 500 practice problems, not including example problems or practice tests more than are found in other test

prep books It also includes the most detailed solutions guides on the market taking students step by step through each problem to help them identify their mistakes and hone their skills Acing also seeks to eliminate the wordiness found in most other test prep books employing a 2 column format in the tutorials Key terms and illustrations in the left hand column present the math concepts as clearly and concisely as possible Example problems in the right hand column enable students to simultaneously learn the application of these concepts In all areas Acing is designed with an emphasis on clear and direct teaching and with the belief that practice is the best preparation for any exam including a standardized test like the SAT Skipping the tricks and gimmicks Acing stands apart from all the other test prep guides on the market The book is also written to be a stand alone resource so students can prepare for the SAT and PSAT on their own independent of outside instruction
