INTRODUCTION

This training manual (TRAMAN) is designed to help you understand your work in the division as a Fire Controlman (FC) supervisor. It will also assist you in meeting the requirements for advancement to Fire Controlman first class and chief.

This manual is not the only publication you will need to prepare for advancement, as you will need to study other publications to prepare for the advancement-in-rate examination. This first chapter includes topics on supervisory responsibilities, effective communications, professional updates, performance and equipment standards, technical materials, and a brief bibliography for information and advancement study.

The responsibilities of an FC supervisor are even greater, as your work will be important to the successful management of the division and the department. For general information on the advancement system and on the increased responsibilities of a supervisor, review *Military Requirements for Petty Officer First Class*, NAVEDTRA 12046.
