

Newton's 1st Law - the law of inertia

An object with no net force acting on it remains at rest or in uniform.

- Objects at rest tend to stay at rest.
- Objects in motion tend to move in a straight line at constant speed.

Inertia - A property of matter which resists changes in motion.

The best measure of an object's inertia is its mass.

Force - A push or pull.

Net forces cause the motion of an object to change.

Examples of Newton's 1st Law in Action:

When you're in a car brake
when you're turning in a car.

In the egg demonstration:

Why does the tray fly across the table? Force was applied toward the tray

Why do the cardboard cylinders go with it? The friction force

Why do the eggs drop straight down into the water? is acting like a glue.
The eggs drop straight down because of gravity.

Physics Challenge: Why doesn't a car in motion on a flat road stay in motion?

Friction forces, and air resistance.

Examples of Accelerated Motion:

Speeding up : slowing down : Starting :
changing direction : Stopping : moving in a circle

Inertia resists acceleration.

A net force causes acceleration.

Newton's 2nd Law - the law of acceleration

When a net force is applied to an object the object will accelerate in the direction of that force.

like an experienced physician assistant and master what you need to know for safe effective practice Custom tailored to physician assistant students and the PANCE and PANRE examination blueprints this innovative resource provides robust preparation through multiple choice questions and answers and real world case studies that prepare you well for your career as a physician assistant Part I introduces you to essential clinical reasoning skills for PANCE PANRE success and safe clinical practice and provides key test taking skills Part II contains 14 body system chapters with multiple choice PANCE PANRE practice questions organized according to the most current NCCPA PANCE content blueprint After each chapter an answer key with complete rationales is provided along with an indication of the corresponding NCCPA task category Part III presents 15 detailed unfolding case studies that take you to the next step in clinical reasoning for safe patient practice with PANCE PANRE style questions throughout the cases for additional practice These patient centered cases integrate demographics cultural aspects ethics and professional practice in decision making An eBook version is included with purchase The eBook allows you to access all of the text figures and references with the ability to search customize your content make notes and highlights and have content read aloud Plus the questions and case studies from the book are available in an interactive format in the eBook version

A Learning Guide for Social Studies Skill Development 7-12 Wisconsin Social Studies Curriculum Study Committee,1979

It's a Matter of Fact Angie Miller,2018-04-09 In this new book from Routledge and MiddleWeb author Angie Miller shows how you can turn your students into informed citizens by teaching them how to research effectively In today s information saturated world research skills have moved beyond fact finding into fact sifting fact sorting and fact assessing Miller shows you how to help students check sources take good notes make use of information and synthesize and present information across the subject areas She also shows how to make research a daily practice not a one time essay or project With examples and online handouts you can use immediately this practical book is a valuable resource for educators seeking to engage students in their work and encourage them toward higher level thinking

The Making of the Slavs Florin Curta,2001-07-12 This book offers an alternative approach to the problem of Slavic ethnicity in south eastern Europe between c 500 and c 700 from the perspective of current anthropological theories The conceptual emphasis here is on the relation between material culture and ethnicity The author demonstrates that the history of the Sclavenes and the Antes begins only at around 500 AD He also points to the significance of the archaeological evidence which suggests that specific artefacts may have been used as identity markers This evidence also indicates the role of local leaders in building group boundaries and in leading successful raids across the Danube Because of these military and political developments Byzantine authors began employing names such as Sclavines and Antes in order to make sense of the process of group identification that was taking place north of the Danube frontier Slavic ethnicity is therefore shown to be a Byzantine invention

Touchstone Level 4 Video Resource Book , Saunders Q & A Review Cards for the
