

The image displays a comprehensive periodic table of elements, color-coded by groups and periods. The elements are arranged in a grid, with each cell containing the element's symbol, atomic number, and name. The table is divided into several color-coded blocks: s-block (red), p-block (yellow), d-block (blue), f-block (green), and g-block (purple). A central diagram shows the periodic table with the following labels: s-block, p-block, d-block, f-block, and g-block. The diagram also includes a legend for the color coding and a list of element groups: s-block, p-block, d-block, f-block, and g-block. The periodic table is presented in a clear, organized manner, making it easy to identify and understand the relationships between different elements.
