1. **Savings** provides safe storage of funds for future use. Commonly referred to as time deposits, money in savings accounts and certificates of deposit are examples of savings plans.
2. **Payment** services allow you to transfer money to pay expenses and for other business activities. Checking accounts and other payment methods are generally called demand deposits.
3. **Borrowing** is used by most people at some time during their lives. Credit alternatives range from short-term accounts, such as credit cards and cash loans, to long-term borrowing, such as a home mortgage.
4. A **trust** is a legal agreement that provides for the management and control of assets by one party for the benefit of another. This type of arrangement is usually created through a commercial bank or a lawyer. Parents who want to set aside certain funds for their children's education may use a trust.

*Bank Account Coverage: The **FDIC** only protects \$250,000 for each bank account

Financial Services and Economic Conditions

- **Commercial banks** offer a full range of financial services, including checking, savings, lending, and most other services. Commercial banks, organized as corporations with investors (stockholders) contributing the needed capital to operate, exist in several types: national banks, regional banks, community banks, and online-only banks.
- **Savings and loan associations (S&Ls)** traditionally specialized in savings accounts and mortgages. Today, these organizations have expanded to offer financial services comparable to those of a bank.
- **Mutual savings banks**, owned by depositors, also specialize in savings accounts and mortgages. Located mainly in the northeastern United States, the profits of a mutual savings bank are shared by depositors usually through higher earnings on savings.
- **Credit unions** are user-owned, nonprofit, cooperative organizations. Although members traditionally had a common bond such as work location, church, or community affiliation, credit union membership today is more flexible, with more than 100 million people in the United States belonging to one. Annual banking studies consistently report lower fees and lower loan rates with higher customer satisfaction levels for credit unions compared to other financial institutions.

The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is a masterful and gripping novel that will keep you guessing until the very end. The novel is a cautionary tale about the dangers of obsession and the power of evil.
