

STEP 1 install batteries

The Vista Amplifier requires power to work with most phones.

1. Remove the Battery Access Door located on the side of the amplifier by placing your thumb on the door and pushing down.
2. Install two AA alkaline batteries and replace the door.
3. You will hear three "beeps" through the headset when the batteries are low.

STEP 2 attach to phone and headset

1. Unplug your telephone's handset cord from the telephone base.

2. Plug your telephone's handset cord into the Vista amplifier handset jack (A).

3. Connect your telephone base to the Vista amplifier telephone jack (B) using the short curly cord. On your telephone base, plug the short curly cord into the outlet normally used for your handset.

4. Plug the headset cord into the Quick Disconnect™ (QD) module on the long curly cord coming from the front of the amplifier. The QD will allow you to disconnect the headset from the amplifier when you are not using the phone, or need to move away from the amplifier, while leaving your headset in place.
