Criteria	Well Above Standard	Above Standard	At Standard	Below Standard	Well Below Standard
Understanding Chance Experiments & Simulations	Thoroughly explains and conducts chance experiments and simulations, accurately using digital tools and analyzing results.	Conducts experiments and simulations effectively, with some analysis using digital tools.	Conducts basic chance experiments and simulations with minimal use of digital tools and limited analysis.	Attempts chance experiments or simulations with significant errors or minimal use of digital tools.	Struggles to conduct chance experiments or simulations, with limited or no use of digital tools.
Comparing Observations with Expected Results	Accurately compares all observations to expected results and clearly explains the effect of increasing trials on variation.	Compares most observations to expected results and discusses the effect of more trials on variation with some clarity.	Makes basic comparisons between observations and expected results with limited discussion of variation.	Limited ability to compare observations to expected results, with little discussion of the effect on variation.	Fails to compare observations to expected results and struggles to explain the effect of variation.
Describing Probability with Fractions, Decimals, Percentages	Uses fractions, decimals, and percentages confidently and accurately to describe probabilities in various contexts.	Uses fractions, decimals, and percentages with minor errors to describe probabilities.	Uses fractions, decimals, or percentages accurately, with some errors when describing probabilities.	Has difficulty using fractions, decimals, or percentages correctly to describe probabilities.	Struggles or fails to use fractions, decimals, or percentages to describe probabilities.
