Learning Through School Science Investigation Azra Moeed, Dayle Anderson, 2018-08-24 This book explores teaching and learning through science investigation and practical work. It draws upon two representative case studies from New Zealand and examines what students are learning from science investigation. In addition, it identifies and describes ways in which teachers can make changes that benefit student learning when given time to reflect and respond to research literature and findings. The book illustrates how teaching through science investigations in ways that are informed by research can lead to positive learning outcomes for students. As such, it offers valuable insights for practitioners, researchers, and educators with an interest in learning through science investigation. **Handbook of Research on Teacher Education** Myint Swe

Khine, Yang Liu, 2022-03-18 This comprehensive book presents emerging research findings and promising reform practices in the field of teacher education, curriculum assessment, teaching and learning approaches, pedagogical innovations, and professional development in educating the next generation of globally competent students.
