European Yearbook of Constitutional Law 2019 Ernst Hirsch Ballin, Gerhard van der Schyff, Maarten Stremmer, 2019-12-02 The European Yearbook of Constitutional Law EYCL is an annual publication initiated by the Department of Public Law and Governance at Tilburg University and devoted to the study of constitutional law It aims to provide a forum for in depth analysis and discussion of new developments in the field both in Europe and beyond This inaugural volume examines the safeguards and limits of judicial power in a variety of constitutional

systems both at the national and supranational level The book approaches the judiciary as part of the constitutional system operating within a legal order that connects the citizens and institutions of the state to each other Looking at the judiciary from this broader perspective the traditional doctrine of the separation of powers would appear no longer to adequately represent the diversity and complexity of constitutional systems and their democratic legitimacy Judicial independence does not mean isolation but should better be understood as institutionalizing relationships that legitimize the power of the courts The notions of safeguards and limits indicate the reciprocally enabling and protecting nature of these relationships In recognition of this the contributions to this volume analyse these safeguards and limits as relations existing within a complex constitutional architecture State institutions today are involved in a fundamental transformation of their selfunderstanding as a result of changes in political culture Several contributions to this volume provide examples of political criticism and pressure on the judiciary against which the usual guarantees are unable to provide adequate protection A convincing and effective response to threats to the judiciary s independence requires a detailed and precise analysis of the judiciary s constitutional safeguards and limits This book offers a step in that direction

Superforecasting Philip E. Tetlock,Dan Gardner,2015-09-29 NEW YORK TIMES BESTSELLER NAMED ONE OF THE BEST BOOKS OF THE YEAR BY THE ECONOMIST The most important book on decision making since Daniel Kahneman s Thinking Fast and Slow Jason Zweig The Wall Street Journal Everyone would benefit from seeing further into the future whether buying stocks crafting policy launching a new product or simply planning the week s meals Unfortunately people tend to be terrible forecasters As

Wharton professor Philip Tetlock showed in a landmark 2005 study even experts predictions are only slightly better than chance However an important and underreported conclusion of that study was that some experts do have real foresight and Tetlock has spent the past decade trying to figure out why What makes some people so good And can this talent be taught In Superforecasting Tetlock and coauthor Dan Gardner offer a masterwork on prediction drawing on decades of research and the results of a massive government funded forecasting tournament The Good Judgment Project involves tens of thousands of ordinary people including a Brooklyn filmmaker a retired pipe installer and a former ballroom dancer who set out to forecast global events Some of the volunteers have turned out to be astonishingly good They ve beaten other benchmarks competitors and prediction markets They ve even beaten the collective judgment of intelligence analysts with access to classified information They are superforecasters In this groundbreaking and accessible book Tetlock and Gardner show us how we can learn from this elite group Weaving together stories of forecasting successes the raid on Osama bin Laden s compound and failures the Bay of Pigs and interviews with a range of high level decision makers from David Petraeus to Robert Rubin they show that good forecasting doesn t require powerful computers or arcane methods It involves gathering evidence from a variety of sources thinking probabilistically working in teams keeping score and being willing to admit error and change course Superforecasting offers the first demonstrably effective way to improve our ability to predict the future whether in business finance politics international affairs or daily life and is destined to become a modern classic
