Scoup For Grade 10 Life Science November 2014:

The Report: Oman 2016 Oxford Business Group,2016-01-12 Oman s GDP grew 4.6% between 2013 and 2014 according to the Oman Central Bank with hydrocarbons the main driver of the economy at almost 50% of GDP. Although the dip in oil prices has put pressure on government revenues, authorities are pressing ahead with spending plans for the sector particularly in the downstream segment. The country s infrastructure expansion plans are also moving forward particularly at the country s three ports as the country seeks to leverage its strategic position on the Strait of Hormuz and establish itself as a global transport and logistics hub. Feeding off this development drive are the sultanate s banks with project finance regarded as one of the most promising areas for lending growth. In the longer term, Oman Vision 2020 seeks to boost private sector participation in the economy and fuel SME growth in key sectors including construction, retail, tourism, and transport.

Innovate to Dominate Tai Ming Cheung,2022-08-15 In *Innovate to Dominate*, Tai Ming Cheung offers insight into why, how, and whether China will overtake the United States to become the world s preeminent technological and security power. This examination of the means and ends of China s quest for techno security supremacy is required reading for anyone looking for clues as to the long term direction of the global order. The techno security domain Cheung argues is where national security innovation and economic development converge, and it has become the center of power and prosperity in the twenty-first century. China s paramount leader Xi Jinping recognizes that effectively harnessing the complex interactions among security innovation and development is essential in enabling China to compete for global dominance. Cheung offers a richly detailed account of how China is building a potent techno security state. In *Innovate to Dominate*, he takes readers from the strategic vision guiding this transformation to the nuts and bolts of policy implementation. The state-led, top-down mobilizational model that China is pursuing has been a winning formula so far, but the sternest test is ahead as China begins to compete head-to-head with the United States and aims to surpass its archrival by mid-century, if not sooner. *Innovate to Dominate* is a timely and analytically rigorous examination of the key strategies guiding China s transformation of its capabilities in the national technological, military, and security spheres and how this is taking place. Cheung authoritatively addresses the burning questions being asked in capitals around the world: Can China become the dominant global techno security power? And if so, when?

Fanon, Žižek, and the Violence of Resistance Zahi Zalloua,2025-06-26 In a novel pairing of anti-colonial theorist Frantz Fanon with Marxist-Lacanian philosopher Slavoj Žižek, Zahi Zalloua explores the ways both thinkers expose the violence of political structures. This inventive exploration advances an anti-racist critique describing how ontology operates in a racial matrix to produce some human bodies that count and others deemed not quite or non-human that do not. For Fanon and Žižek, the violence of ontology must be met with another form of violence: a revolutionary violence that delegitimizes the logic of the symbolic order and troubles its collective fantasies. Whereas Fanon begins his challenge to ontology by exposing its historical linkages to Europe s destructive imperialist procedures, before proceeding to stretch Marxism along with

psychoanalysis to account for the crushing neo colonial situation i ek premises his work on the refusal to accept the totality of ontology Because of these different points of intervention Fanon and i ek together offer a powerful and multifaceted assessment of the liberal anti racist paradigm whose propensity for identity politics and aversion to class struggle silence the cry of the dispossessed and foreclose radical change Avoiding contemporary separatist temptations decoloniality and Afropessimism and breaking with a non violent sentimentalist futurology that announces more of the same Fanon and i ek point in a different direction one that eschews identitarian thought in favor of a collective struggle for freedom and equality
