

North Pacific Research Board

Thomas Griffiths

North Pacific Research Board:

Final Comments on the Science Plan for the North Pacific Research Board National Research Council, Polar Research Board, Ocean Studies Board, Committee on a Science Plan for the North Pacific Research Board, 2005-02-22 The North Pacific Research Board NPRB was established by Congress in 1997 to recommend marine research activities to the Secretary of Commerce on or relating to the fisheries or marine ecosystem in the North Pacific Ocean Bering Sea Arctic Ocean and related bodies of water NPRB called on the National Academies to develop a comprehensive long range science plan pertaining to its research activities This assistance has been provided in two phases In phase one beginning in early 2003 a National Academies committee worked to understand the purpose of the NPRB gather information to help identify research needs and provide advice on the components of a sound science plan The committee s assessment is contained in a report released in early 2004 Elements of a Science Plan for the North Pacific Research Board With this guidance as a tool the NPRB staff Science Panel and Advisory Panel worked together to write a draft science plan to steer the program in the coming decade During the second phase the same committee reviewed the NPRB s draft science plan and provided final feedback to the NPRB It is a focused review generally following the organization of the NPRB document This report is intended primarily as a direct communication from the committee to those planning the NPRB s programs to help them improve the science plan and ensure successful implementation

Elements of a Science Plan for the North Pacific Research Board National Research Council, Polar Research Board, Ocean Studies Board, Committee on a Science Plan for the North Pacific Research Board, 2004-05-06 The North Pacific Research Board NPRB was established in 1997 as custodian to a pool of funds intended for the study of the North Pacific Ocean Bering Sea and Arctic Ocean The success of the NRPB is the development of a high quality long range science plan that provides a better understanding of ecosystems and their fisheries in the region This report provides a framework to help the NPRB identify appropriate science themes and mechanisms for administering and distributing the funds It contains extensive input from residents of Alaskan communities to help scientists understand and address issues of importance to the local communities The book makes specific recommendations on long term research priorities the NPRB management structure and the development of future programs

Archaeology of North Pacific Fisheries Madonna L. Moss, Aubrey Cannon, 2011-11-15 For thousands of years fisheries were crucial to the sustenance of the First Peoples of the Pacific Coast Yet human impact has left us with a woefully incomplete understanding of their histories prior to the industrial era Covering Alaska British Columbia and Puget Sound The Archaeology of North Pacific Fisheries illustrates how the archaeological record reveals new information about ancient ways of life and the histories of key species Individual chapters cover salmon as well as a number of lesser known species

abundant in archaeological sites including pacific cod herring rockfish eulachon and hake In turn this ecological history informs suggestions for sustainable fishing in today s rapidly changing environment

Partnerships in Marine Research Guillermo Auad,Francis K. Wiese,2021-12-01 Partnerships in Marine Research Case Studies Lessons Learned and Policy Implications provides a thorough assessment of this important approach to Marine Research It starts by looking at the problems faced by scientists as they conduct investigations within Marine Research it then leads into case studies where partnerships have been successful and concludes with the ultimate intended outcomes for this approach Through these sections of the book an experience based framework for sustainable partnerships and science is introduced including some key elements identifiable in the case studies presented Elements of the framework are implicitly present in each of the case studies including four key elements flexibility of the partnership system diversity of partners and functions redundancy and connectivity These four elements are important aspects of the partnership resilience and crucial to sustain and to achieve its goals Partnerships in Marine Research guides the sustainable planning and implementation of future ocean science and technology projects and provides a fundamental tool for researchers engineers and decision makers involved in collaborative Marine Research Presents chapters from a diverse group of contributors enabling a broad and deep perspective Includes case studies to connect the reader to successful marine research partnerships Provides key elements of resilient and sustainable partnerships throughout different project phases and a framework for supporting research partnerships in the future Projects lessons learned and conclusions toward a plausible 2050 scenario to advance and reach sustainable development goals while aiming to rebuild marine life in the Global Ocean

Herring and People of the North Pacific Thomas F. Thornton,Madonna L. Moss,2021-01-31 A unique look at Indigenous knowledge fisheries management and marine ecology Herring are vital to the productivity and health of marine systems and socio ecologically Pacific herring *Clupea pallasii* is one of the most important fish species in the Northern Hemisphere Human dependence on herring has evolved for millennia through interactions with key spawning areas but humans have also significantly impacted the species distribution and abundance Combining ethnological historical archaeological and political perspectives with comparative reference to other North Pacific cultures Herring and People of the North Pacific traces fishery development in Southeast Alaska from precontact Indigenous relationships with herring to postcontact focus on herring products Revealing new findings about current herring stocks as well as the fish s significance to the conservation of intraspecies biodiversity the book explores the role of traditional local knowledge in combination with archeological historical and biological data in both understanding marine ecology and restoring herring to their former abundance

Environmental Statutes ,2008-07-31 Update your compliance library or make a needed addition to it with the newly updated version of this GI classic Featuring the official legal text of all 12 environmental statutes as they appear in the U S Code this two volume reference brings
