Chijioke,2016-08-05 About the Book Paucity of literature in the area of maritime law in Nigeria was what motivated the author to embark on this project and as such this book is the authors attempt to contribute to the bridging of the gap in knowledge in this area of the law This book is written in simple and understandable English to ensure fluidity of reading It is presented in such a way as to provide information in the areas of commercial law carriage of goods by sea maritime law as well as practical steps in maritime law litigation and related actions Particular consideration has been given to the study of carriage of dangerous goods by sea a subject which existing legal literature in Nigeria merely mentioned in passing Suffice it to say that this book is the first Nigerian legal literature that has explored that subject taking into consideration our domestic laws and international treaties most of which are yet to be ratified and domesticated in Nigeria Though the work has Nigeria as its geographical location it has discussed the subject with comparative analysis of contemporary development in some areas of maritime law with special reference to the United Kingdom and the United States It is the authors belief that this book apart from providing practical guide to maritime litigation in Nigeria would also serve as veritable tool for teaching and studying of maritime law and related courses in Nigerian Universities and other territory institutions and would be immeasurably useful to legal practitioners members of the bench an research fellows Dr C O Chijioke Faculty of Law Abia State University **New Accountabilities, New Challenges** John Wanna,Evert A. India Infrastructure Report 2012 Idfc Foundation,2016-04-08 Today India s education sector remains a victim of poor policies restrictive regulations and orthodoxy Despite being enrolled in schools children are not learning adequately Increasingly parents are seeking alternatives through private inputs in school and tuition Students are dropping out from secondary school in spite of high financial returns of secondary education and those who do complete it have inferior conceptual knowledge Higher education is over regulated and under governed keeping away serious private providers and reputed global institutes Graduates from high schools colleges and universities are not readily employable and few are willing to pay for skill development Ironically the Right to Education Act if strictly enforced will result in closure of thousands of non state schools and millions of poor children will be left without access to education Eleventh in the series India Infrastructure Report 2012 discusses challenges in the education sector elementary secondary higher and vocational and explores strategies for constructive change and opportunities for the private sector It suggests that immediate steps are required to reform the sector to reap the benefits from India s demographic dividend due to a rise in the working age population Result of a collective effort led by the IDFC Foundation this Report brings together a range of perspectives from

academics researchers and practitioners committed to enhancing educational practices It will be an invaluable resource for policymakers researchers and corporates The Impact of the Crisis on the EU Perspective of the Western Balkans Rumiana Jeleva,2012-04-29 Please find a free PDF download available here <http://martenscentre.eu/publications/impact-crisis-eu-perspective-western-balkans> Like elsewhere in Europe the crisis has affected economic developments in the Western Balkans from Croatia in the north to Albania in the south The countries in the region face difficulties such as high unemployment decreased availability of bank credit and reduced trade Furthermore the inability of their political institutions to deal immediately with these economic challenges has reinforced the negative effects of the crisis What does this mean for the Western Balkans accession to and integration within the EU This paper by Rumiana Jeleva shows that improving the economic situation is an essential precondition for public support for EU integration At the same time it argues that the pro European orientation of the Western Balkans ensures that they will continue to look towards the EU rather than to the US or Russia This is demonstrated by the fact that they are not merely taking measures to recover from the crisis they are taking measures that are aligned with European regulations The Western Balkan countries may have a long way to go to become EU members but they have proven their commitment to a future within the EU by their pro European solutions to the crisis This makes it all the more important for the EU even in this time of crisis to continue to support the accession process and bring the Western Balkans closer to the EU EU External Relations Law Bart Van Vooren,Ramses A. Wessel,2014-04-24 This major new textbook for students in European law uses a text cases and materials approach to explore the law politics policy and practice of EU external relations and navigates the complex questions at the interface of these areas The subject is explored by explaining major constitutional principles and elaborating upon them in policy specific chapters ranging from common commercial policy and development policy over CFSP CSDP and AFSJ to energy and enlargement policy Specific attention is given to the relationship between European integration the role of law and the EU as an effective international actor Designed for easy navigation chapters include key objectives summaries and textboxes which frame key issues and guide the reader through the functioning of legal principles Students gain a detailed understanding of the historical development context and present functioning of EU external relations law in a highly politicised European and international environment **ACCA Paper P2 - Corporate Reporting (INT and UK) Practice and revision kit** BPP Learning Media,2012-01-01 Question practice is essential for all papers but particularly for P2 as it has a strong fear factor Questions look intimidating and it is only once you get into the detail that you realise that there are easy marks on offer Our examiner reviewed Practice and Revision Kit gives ample opportunity to practice the long case study questions so important in the exam Three mock exams provide essential exam rehearsal practice Many questions have marking schemes so that you can see that the examiner awards marks for these techniques *Puja (CTET & TETs) English Language & Pedagogy (Paper I & II) Book (Super TET/HPTET/HTET/REET/PTET/MPTET/UTET/CGTET)* Y.P. Lagadec,2012-05-16 This book offers an overview of the interface between European integration transatlantic relations and the rise of the rest in the early 21st century The collapse of the Soviet bloc opened up an era in which the drivers and perceived benefits of the US alliance among European countries have become more variegated and shifting The proposition that the US remains at once an indispensable and intolerable nation in Europe is a key concept in the alliance as the US remains inextricably tied to the continent through economic military and cultural links This work examines this complex subject area from many angles including an analysis of the historical and cultural contexts of America s relations with Europe as well as a discussion of the politics of transatlantic affairs which utilises evidence gleaned from a series of case studies In the concluding chapters the author assesses the likelihood that the West can entrench its global dominance in the realms of soft and hard power and by effecting a controlled reform that will see multilateral structures open up to emerging powers This book will be of great interest to students of European Politics EU integration transatlantic relations US foreign policy diplomacy International Security and IR in general **MPPSC Prelims Solved Previous Papers - GS Paper-1 & CSAT**

Sustainable Groundwater Development for Improved Livelihoods in Sub-Saharan Africa Paul Pavelic, Karen G. Villholth, Shilp Verma, 2023-05-08 This book provides a comprehensive analysis of the benefits and challenges of intensifying groundwater irrigation in Sub Saharan Africa SSA for improving smallholder agrarian livelihoods Only about 3% of the groundwater resources of Sub Saharan Africa are used for irrigated agriculture despite the subcontinent s relative abundance of groundwater The majority of the region s smallholders are highly dependent on seasonal dryland cropping making them extremely vulnerable to uncertain weather patterns and droughts Improved irrigation capabilities through sustainable groundwater development could unleash smallholder farming and make it a major

driver of economic growth poverty reduction climate resilience and improved food security So why is groundwater so underused Tapping into groundwater requires a major shift in farming practices and it has its own challenges and requirements smallholder access to land and finance for irrigation infrastructure and equipment gendered and equitable adoption options This whole list is framed in terms of what the smallholder farmers need Hence this should also be put in this context supply chains energy access resource availability and institutional support The chapters in this book present a picture that is not only heterogeneous across the region but also hold some common denominators They serve to enrich the discourse and help better understand the barriers along the pathways toward the sustainable and transformative adoption of groundwater irrigation The scientific information provided herein would be of interest to researchers practitioners decision makers and planners with interest in the region This book was originally published as a Special Issue of Water International journal
