Leslie Bank, Nico Cloete

November 2014 A Level Literature Question Zimsec:

Flows and Practices Lyla Mehta,Bill Derman,2017-05-19 For the past two decades Integrated Water Resources Management IWRM has been the dominant paradigm in water resources This book explores how ideas of IWRM are being translated and adapted in Mozambique South Africa Tanzania Uganda and Zimbabwe Grounded in social science theory and research it highlights the importance of politics history and culture in shaping water management practices and reform and demonstrates how Africa has clearly been a laboratory for IWRM While a new cadre of professionals made IWRM their mission we show that poor women and men may not have always benefitted In some cases IWRM has also offered a distraction from more critical issues such as water and land grabs privatisation the negative impacts of water permits and a range of institutional ambiguities that prevent water allocations to small and poor water users By critically examining the interpretations and challenges of IWRM the book contributes to improving water policies and practices and making them more locally appropriate in Africa and beyond

Anchored in Place Bank, Leslie, Cloete, Nico, 2018-11-05 Tensions in South African universities have traditionally centred around equity particularly access and affordability historical legacies such as apartheid and colonialism and the shape and structure of the higher education system What has not received sufficient attention is the contribution of the university to place based development This volume is the first in South Africa to engage seriously with the place based developmental role of universities In the international literature and policy there has been an increasing integration of the university with place based development especially in cities This volume weighs in on the debate by drawing attention to the place based roles and agency of South African universities in their local towns and cities It acknowledges that universities were given specific development roles in regions homelands and towns under apartheid and comments on why sub national place based development has not been a key theme in post apartheid higher education planning Given the developmental

crisis in the country universities could be expected to play a more constructive and meaningful role in the development of their own precincts cities and regions But what should that role be Is there evidence that this is already occurring in South Africa despite the lack of a national policy framework What plans and programmes are in place and what is needed to expand the development agency of universities at the local level Who and what might be involved Where should the focus lie and who might benefit most and why Is there a need perhaps to approach the challenges of college towns secondary cities and metropolitan centers differently This book poses some of these questions as it considers the experiences of a number of South African universities including Wits Pretoria Nelson Mandela University and especially Fort Hare as one of its post centenary challenges *Yearbook of International Organizations 2014-2015, Volumes 1a & 1b (Set)* Union of International Associations,2014-06-16 Volume 1 A and B covers international organizations throughout the world comprising their aims activities and events *Reading acquisition of chinese as a second/foreign language* Linjun Zhang,Zaizhu Han,Yang Zhang,2023-07-12 Research Anthology on Microfinance Services and Roles in Social Progress Management Association, Information Resources,2022-09-23 Microfinance has emerged as a growing field as more businesses discover the benefits and opportunities it provides To ensure that microfinance is utilized appropriately further study on the best practices and difficulties is required The Research Anthology on Microfinance Services and Roles in Social Progress considers the ways in which microfinance can be utilized to achieve social progress as well as the challenges and opportunities of this area Covering key topics such as income small businesses entrepreneurship and credit this major reference work is ideal for industry professionals government officials computer scientists entrepreneurs business owners managers policymakers researchers scholars practitioners instructors and students *Plant Life* Rosetta S. Elkin,2022-05-17 How afforestation reveals the often concealed politics between humans and plants In *Plant Life* Rosetta S Elkin explores the procedures of afforestation the large scale planting of trees in otherwise treeless environments including grasslands prairies and drylands Elkin reveals that planting a tree can either be one of the ultimate offerings to thriving on this planet or one of the most extreme perversions of human agency over it Using three supracontinental case studies scientific forestry in the American prairies colonial control in Africa s Sahelian grasslands and Chinese efforts to control and administer territory Elkin explores the political implications of plant life as a tool of environmentalism By exposing the human tendency to fix or solve environmental matters by exploiting other organisms this work exposes the relationship between human and plant life revealing that afforestation is not an ecological act rather it is deliberately political and distressingly social *Plant Life* ultimately reveals that afforestation cannot offset deforestation an important distinction that sheds light on current environmental trends that suggest we can plant our way out of climate change By radicalizing what conservation protects and by framing plants in their total aliveness Elkin shows that there are many kinds of life not just our own to consider when advancing environmental policy Newborn Surgery Prem Puri,2017-09-22 Following the success of three previous editions

this new edition of Newborn Surgery continues to provide the most comprehensive information on the surgical management of neonatal disorders Each chapter is thoroughly revised and updated and there are eight new chapters on key topics in the specialty including neonatal care in the delivery room specific risks for pre term infants surgical safety tissue engineering and stem cell research and surgical implications of HIV
