Between eras of multiple kingdoms and warlordism Chinese dynasties have ruled parts or all of China in some eras control stretched as far as Xinjiang and Tibet as at present. Traditional culture and influences from other parts of Asia and the Western world carried by waves of immigration cultural assimilation expansion and foreign contact form the basis of the modern culture of China.

The People's Wars Mark Hewitson, 2017-02-09 How did ministers journalists academics artists and subjects in the German lands imagine war during the nineteenth century? The Napoleonic Wars had been the bloodiest in Europe's history directly affecting millions of Germans yet their long term consequences on individuals and on politics are still poorly understood. This study makes sense of contemporaries' memories and histories of the Revolutionary and Napoleonic campaigns within a much wider context of press reportage of wars elsewhere in Europe and overseas debates about military service and the reform of Germany's armies revolution and counter revolution and individuals' experiences of violence and death in their everyday lives. For the majority of the populations of the German states wars during an era of conscription were not merely a matter of history and memory rather they concerned subjects' hopes fears and expectations of the future. This is the second volume of Mark Hewitson's study of the violence of war in the German lands during the nineteenth and twentieth centuries. It investigates the complex relationship between military conflicts and the violent acts of individual soldiers. In particular it considers the contradictory impact of pacification in civilian life and exposure to increasingly destructive technologies of killing during war time. This contradiction reached its nineteenth century apogee during the wars of unification leaving an ambiguous imprint on post war discussions of military conflict.

The Foundations of Japan's Modernization Yoshiie Yoda, 2023-11-27 Tracing and evaluating the development in the history of Japanese culture and society that permits Japan's rapid and continuing modernization Professor Yoda provides a new and original approach to the modernization of Japan. He starts from the assumption that Japan was better equipped for modernization because pre modern Japan had already started to abandon Confucian influences. In his account of modernization during the Meiji period he focuses on general patterns inherent in Japanese culture and society enabling Japan to integrate foreign elements without having to follow foreign models slavishly. Patterns in culture such as the Japanese preference for juxtaposing the new and the ancient are contrasted with China's preference for discarding past institutions in revolutionary processes. The transferability of paradigms such as absolutism is accepted with some modifications. In the major descriptive part of the work the history of economic political institutional modernization is presented on the basis of quotations from original Japanese and Chinese sources arranged within the methodological framework of universal historical concepts indigenous cultural patterns and specific conditions in both countries. The book is composed of two articles previously published in Japanese and Chinese two new chapters written especially for the volume and background information provided by Professor Radtke.
