Bicycles, Bloomers and Great War Rationing Recipes Vicky Straker, 2016-07-31 The remarkable life and culinary career of the Martha Stewart of World War era Britain Dorothy Peel played a key role in creating wartime recipes for householders and was awarded an OBE in 1918 for services to the Ministry of Food In this fascinating book Vicky Straker explores the

social history and cultural background behind Dorothy's creations and the effect of rationing during the First World War. Using extracts from her autobiography and many other books we are given a unique insight into the life of Dorothy Peel and a new perspective on the period. Her witty poignant and informative comments reveal a woman with a genuine social conscience who was in many ways ahead of her time. Written in a light and accessible style *Bicycles Bloomers and Great War Rationing Recipes* reveals how society changed during the First World War when rationing put a strain on every kitchen in the country. Many of Dorothy's recipes are featured in their original form such as the long forgotten Devilled Bananas and wartime Potato Gateau. Other mouth watering recipes include Chicken en Casserole Cheese Pufflets and some delicious tea time treats such as Feather Tart and Candied Pears. Vicky Straker has tried and tested recipes from Dorothy's cookery books and where appropriate amended them to suit modern tastes. Superb biography and some really interesting recipes to try.

Books Monthly **Pickled, Potted, and Canned** Sue Shephard, 2001 A history of food preservation which forever changed the world details the chemists' cooks' old legends and new ideas from Attila the Hun's unique method for curing meat to the technological advancements of today. **Nursery Cookery ...** Mrs. H. Pillow, 1900 **Fifty Recipes to Stake Your Life** On Charles Campion, 2004-10-20 **The Oxford Companion to Food** Alan Davidson, 2014-08-21 the best food reference work ever to appear in the English language read it and be dazzled. Bee Wilson *New Statesman* First published in 1999 the ground breaking *Oxford Companion to Food* was an immediate success and won prizes and accolades around the world. Its blend of serious food history culinary expertise and entertaining serendipity was and remains unique. Interest in food cooking and the culture surrounding food has grown enormously in the intervening period as has the study of food and food history. University departments international societies and academic journals have sprung up dedicated to exploring the meaning of food in the daily lives of people around the world alongside an ever increasing number of articles books programmes and websites in the general media devoted to the discussion of food making the *Oxford Companion to Food* more relevant than ever. Already a food writing classic this Companion combines an exhaustive catalogue of foods be they biscuits named after battles divas or revolutionaries body parts from nose to tail toe to cerebellum or breads from the steppes of Asia or the well built ovens of the Mediterranean with a richly allusive commentary on the culture of food expressed in literature and cookery books or as dishes peculiar to a country or community. While building on the Companion's existing strengths Tom Jaine has taken the opportunity to update the text and alert readers to new perspectives in food studies. There is new coverage of attitudes to food consumption production and perception such as food and genetics food and sociology and obesity. New entries include terms such as convenience foods drugs and food Ethiopia leftovers medicine and food pasta and many more. There are also new entries on important personalities who are of special significance within the world of food among them Clarence Birdseye Henri Nestlé and Louis Pasteur. In its new edition the Companion maintains its place as the foremost food reference resource for study and home use. **Five Roses Cook Book** Lake of the Woods Milling Company, 1915

Culture and Cooking Catherine Owen, 2008-07 Catherine Owen's 1881 *Culture and Cooking* is not a recipe book per se but rather an attempt to help readers understand food. She explains the processes of why recipes work and aims to elevate cooking in America to an art form rather than a utilitarian daily process of feeding the body. The recipes she does provide are written like a work of literature rather than a listing of ingredients and directions to give readers a thorough understanding of cookery so that American cooks will begin like the French to see cooking as an art. *The Agricultural Gazette and Modern Farming*, 1911
