William Holman Hunt and Typological Symbolism (Routledge Revivals) George P. Landow, 2015-06-11 In this study first published in 1979 Landow contends that Hunt's version of Pre Raphaelitism concerned itself primarily with an elaborate system of painterly symbolism rather than with a photographic realism as has been usually supposed Like Ruskin Hunt believed that a symbolism based on scriptural typology the method of finding anticipations of Christ in Hebrew history could produce an ideal art that would solve the problems of Victorian painting According to Hunt this elaborate symbolism could simultaneously avoid the dangers of materialism inherent in a realistic style the dead conventionalism of academic art and the sentimentality of much contemporary painting George Landow examines Hunt's

work in the context of this argument and drawing on much unknown or previously inaccessible material shows how he used texts frames and symbols to create a complex art of mediation that became increasingly visionary as the artist grew older

This book is ideal for students of art history **The Market and its Critics (Routledge Revivals)** Noel

Thompson,2014-10-03 The Market and Its Critics first published in 1988 considers the reaction of socialist writers to the growth of the market economy in nineteenth century Britain and examines in detail the diverse elements of the critique which they formulated Dr Thompson looks at the theoretic and thematic continuities and discontinuities over the century structuring his study around the idea of a changing socialist response to the market economy Much of the literature in question is comprehensive perceptive and acute However the writers invariably discounted the possibility of the market playing a role in a future socialist or communist commonwealth The solutions they posited to the problem were inapplicable to the increasingly industrial economy of the time It was this that left their writing vulnerable to attack and which had profound consequences both for the fate of the socialist political economy in nineteenth century Britain and its subsequent evolution in the twentieth century **Writings on Distribution and Welfare (Routledge Revivals)** J. Hobson,2013-10-14

The articles in this volume originally published in a variety of journals between 1890 and 1937 deal with the themes of the distribution of income and welfare Highlighting the contribution which Hobson made to welfare economics and the way in which he distanced himself from his more orthodox contemporaries in interpretation the articles also show the changes in Hobson s views over the decades in which they were written This is a fascinating collection of material that provides an unparalleled depth of insight into the views of one of the most important economic thinkers of the early twentieth century

(Routledge Revivals) Anthony O'Hear,2014-06-17 First published in 1988 the aim of this book can be stated in Nietzsche s words To look at science from the perspective of the artist but at art from that of life The title contests the notions that science alone can provide us with the most objective truth about the world and that artistic endeavour can produce nothing more valuable than entertainment O Hear argues that art and the study of art are not indispensable aspects of human life and that this is equally as important as the investigation of the natural world *The Gothic's Gothic (Routledge Revivals)*

George P. Landow, 2014-07-11 The importance of typology in the study of early modern literature has long been accepted yet students of Victorian culture have paid little attention to it First published in 1980 this study demonstrates how biblical typology an apparently arcane interpretative mode had profound effects on the secular culture of the Victorian age its art literature and thought George Landow considers the way in which the average English believer learned to read their Bible in terms of the types and shadows of Christ the various ways in which Victorian poetry and hymns employed certain imagery and the use of typological symbolism in narrative poetry prose fiction dramatic monologue and non fiction In a concluding chapter he investigates the particularly complex and often ironic combinations of typological image and typological structure
