

Heart: Internal Structure

The heart is a muscular organ that pumps blood throughout the body. It is located in the chest cavity, between the lungs, and is surrounded by a double-walled sac called the pericardium. The heart is divided into four chambers: the right atrium, right ventricle, left atrium, and left ventricle. The right side of the heart receives deoxygenated blood from the body, and the left side pumps oxygenated blood to the rest of the body.
