The Oxford Handbook of Productivity Analysis Emili Grifell-Tatjé, C.A. Knox Lovell, Robin C. Sickles, 2018-08-07

Productivity underpins business success and national well being and thus it is crucial to understand the factors that influence productivity growth This volume provides a comprehensive exploration into the significance of productivity growth for business the economy and for social economic progress It examines how productivity is defined measured and implemented It also surveys the dispersion of productivity across time and place focusing on the productivity dynamics that either leads to a reallocation of resources that reduces dispersion and increases aggregate productivity or conversely allows dispersion to persist behind barriers to productivity enhancing reallocation A third focus is an investigation of the drivers of or impediments to productivity growth some of which are organizational in nature and under management control and others of which are institutional in nature and subject to public policy intervention The Oxford Handbook of Productivity Analysis contains contributions of distinguished productivity experts from around the world who analyze a wide range of timely issues These issues concern purely analytical topics surrounding the measurement of productivity in various situations beginning with the ideal situation in which all inputs and all outputs and their prices are observed accurately They also include service sectors such as education in which the services provided are hard to define much less measure and other sectors that generate undesirable environmental externalities that are difficult to price and complicate the very definition of productivity The issues also involve business management topics ranging from the role of business models and benchmarking to the quality of management practices the adoption of new technologies and possible complementarities between the two The relationship between productivity and business performance is also explored At a more aggregate level the issues range from the impacts of market power incentive regulation international trade and global value chains on productivity to the contribution of productivity to economic development and economic welfare The Future of High-Cost Credit Jodi

Gardner, 2022-07-14 This book proposes a new way of thinking about the controversial and complex challenges associated with the regulation of high cost credit specifically payday lending These products have received significant attention in both the media and political arena The inadequacy of regulatory interventions has created ongoing problems with the provision of high cost credit particularly for consumers with lesser bargaining power and who are already financially vulnerable The book tackles two specific gaps in the existing literature The first involves inadequate analysis of the relevant philosophical concepts around high cost credit which can result in an over simplification of what are particularly complex issues The second is a lack of engagement in both the market and lived experience of borrowers resulting in limited understanding of those who use these financial products The Future of High Cost Credit explores the theoretical grounding policy initiatives and interdisciplinary perspectives associated with high cost credit making a novel and insightful contribution to the existing literature The problems with debt extend far beyond the legal sphere and the book will therefore be of interest to many other

The Shifting Meaning of Legal Certainty in Comparative and Transnational Law Mark Fenwick, Mathias Siems, Stefan Wrzka, 2017-09-21 The principle of legal certainty is of fundamental importance for law and society it has been vital in stabilising normative expectations and in providing a framework for social interaction as well as defining the scope of individual freedom and political power Even though it has not always been fully realised legal certainty has also functioned as a normative ideal that has structured legal debates both at the national and transnational level This book presents research from a range of substantive areas regarding the meaning possibility and desirability of legal certainty in the context of a rapidly changing global society It aims to address these issues by bringing together scholars from various jurisdictions in order to examine changes in the shifting meaning of legal certainty in a comparative and transnational context In particular

the book explores some of the tensions that now exist between the conventional expectation of legal certainty and the various challenges associated with regulating highly complex late modern economies and societies The book will be of interest to lawyers concerned with understanding the transformation of core rule of law values in the context of contemporary social change as well as to political scientists and social theorists *Rethinking Intellectual Property* Gustavo Ghidini,2018

Intellectual property law is built on constitutional foundations and is underpinned by the twin freedoms of freedom of expression and freedom of economic enterprise In this thoughtful evaluation Gustavo Ghidini offers up a reconstruction of the core features of each intellectual property paradigm including patents copyright and trademarks suggesting measures for reform to allow intellectual property to become socially beneficial for all **Analysis of agriculture and rural**

development policy in Albania Food and Agriculture Organization of the United Nations,2022-05-18 Albania is on the road to accession to the European Union In this pre accession period the role of agricultural and rural development policy is crucial in order to prepare a viable farming sector that can withstand competitive pressures in the single market after joining the European Union The economic and financial opportunities that the European Union provides through accessing the single market and the instruments of the Common Agricultural Policy CAP are additional strong incentives to prepare the agricultural sector for European Union integration In order to maximize the benefits of the single market and of CAP measures Albania needs to adjust agriculture support policies and align them to the CAP In recent years Albania has been making efforts to reform its agricultural and rural development policy and align it with the European Union CAP The vision of the agricultural policy is based on the priorities of the Inter sectorial Strategy for Agriculture and Rural Development ISARD 2014 2020 the National Strategy for Development and Integration NSDI II 2015 2020 the National Programme for European Integration NPEI 2019 2021 GoA Program 2017 2020 as well as the Ministry of Agriculture and Rural Development MARD priorities Research Handbook on Climate Governance Karin Bäckstrand,Eva Lövbrand,2015-11-27 The 2009 United

Nations climate conference in Copenhagen is often represented as a watershed in global climate politics when the diplomatic efforts to negotiate a successor agreement to the Kyoto Protocol failed and was replaced by a fragmented and decentralized climate governance order In the post Copenhagen landscape the top down universal approach to climate governance has gradually given way to a more complex hybrid and dispersed political landscape involving multiple actors arenas and sites The Handbook contains contributions from more than 50 internationally leading scholars and explores the latest trends and theoretical developments of the climate governance scholarship **The Food Commons Approach in the EU Agri-food**

Law Antonio Manzoni,2024-09-19 This book presents a thorough analysis of the innovative food commons approach in relation to the EU Common Agricultural Policy CAP The debates surrounding this pivotal European policy have always been robust and with the ambitious targets outlined by the UN Sustainable Development Goals and the European Green Deal they are poised to become even more prominent To effectively realize these objectives it is imperative to systematically reassess

the fundamental structures of our food systems and enact substantive reforms within EU agri food law and policymaking The food commons approach represents not only a novel theoretical framework but also and foremost a dynamic socio political movement that has garnered attention from both researchers and policymakers due to its pioneering nature Rejecting the prevailing paradigm of absolute commodification of food this approach endeavours to reconceptualize our food systems through the prisms of ecology social inclusion collective governance and resilience The overarching objective of this book is to scrutinize the potential of this novel approach to fundamentally reshape the theoretical underpinnings of EU agri food law ultimately facilitating the realization of more sustainable and just food systems The target audience of this book mainly consists of academic researchers but also practitioners and policymakers working on agricultural and environmental studies due to its interdisciplinary approach and the originality of its content Along the same lines the book will appeal to NGOs indigenous peoples and food sovereignty movements around the world *Made in Hungary* Emília Barna, Tamás
