FROM CHAPTER 9

husbandry and agriculture

9.1.1 Characteristics of the agricultural stage of economic development

- The San and Khoikhoi groups used basic hunting weapons, such as bows and arrows.
- The Nguni and the Sotho groups used implements to till the soil and weapons for hunting and war. They were also herders of cattle, sheep and goats.
- People produced agricultural goods for themselves, seldom to trade.
- There was a little trade, mostly in the form of bartering.
- There were no well-developed markets.
- Most of the economic activity in South Africa was agriculture and hunting.
- There was a small population on large pieces of land.
- Labour was scarce; slaves were imported as extra labour.
- Capital was scarce.
- Most farmers produced almost everything they needed themselves.

9.1.2 Factors promoting economic development in agriculture

- The Dutch could barter with the Khoi and the San for land.
- Plentiful game made hunting easy.
- A small market developed for selling food products to the passing ships.
- The colonial powers protected the markets. For example, Britain taxed imports of French wines to promote sales of wines from the Cape to people in Britain.
- In the Cape, local taxes on imports promoted local production of food. For example, a tax on wheat imports in the 1820s encouraged farmers to grow wheat.
- Improved transport and infrastructure

9.1.3 Factors hampering economic development in agriculture

- Lack of capital.
- Labour was scarce.
- There were few or no schools and other educational institutions; most people had little or no education.
- Most areas had little or no infrastructure.
- The colonial powers often had monopolies in the markets. For example, farmers could only sell their goods to the Dutch East India Company.
