

OBJECTIVES OF RESEARCH

Research is defined as a systematised effort to gain new knowledge. It is referred to as the search for knowledge.

The main purpose of research is to find solutions to unsolved problems using scientific procedures and to understand various phenomenon scientifically.

The main objective of research is to find out a hidden, undiscovered truth.

The various objectives are –

1. Propose and test certain hypothesis that provide causal relationships between variables.
2. Discover and establish the existence of relationship, association and independence between two or more aspects of a situation or phenomenon.
3. Understand different phenomenon and develop new perceptions about it.
4. Study and describe accurately the characteristics of situations, problems, phenomenon, services, groups or individuals.
5. Explain the unexplored horizons of knowledge.
6. Test reported findings and conclusions on new data and novel conclusions on previously reported data.
7. Study the frequency of research that is connected with unspecified study.

Objective Of Research Paper

Anthropological Research Methodology Gaya Pandey, 2018-01-01

The book entitled Anthropological Research Methodology Theory and Practice is an attempt to present different aspects of anthropological researches within one cover to extend help to students scholars and researchers in understanding the whole issue of research methodology taught and employed in anthropology

Anthropological Research Methodology has its own feature

That is why its methodology is quite different from the methodology of other social sciences

The ethnographic method or fieldwork method is soul of Anthropology

This method helps a researcher to establish a balance between subjectivity and objectivity

There are a number of books written in English by different scholars on different aspects of Anthropological researches

But they are not found in one cover and they lack Indian expression

The book presents systematically chapters on Historical Background of Anthropological Researches

Anthropological Approaches Types of Researches Research Designs Hypothesis Theory Law and Concept Techniques of Data Collection Scrutiny and Data

Processing Presentation of Data Statistics Statistical Analyses of Mean Median Mode Standard Deviation Partition Value Correlation Chi square Fitness of good Report writing Thesis dissertation writing Scientific paper writing and Bibliography writing The simple language of the book will definitely serve the purpose of students scholars researchers interested not only in Anthropological Researches but Researches in other Social Sciences **The Objectives of Islamic Law** Rume

Ahmed, Idris Nassery, Muna Tatari, 2020-07-06 Scholars thinkers and activists around the world are paying increasing attention to a legal reform method that promises to revolutionize the way people think about Islamic law Known as The Objectives of the Shari a maqa id al shari a the theory offers a way to derive and apply new Islamic laws using an ancient methodology The theory identifies core objectives that underlie Islamic law and then looks at inherited Islamic laws to see whether they meet those objectives According to the maqa id theory historical Islamic laws that meet their objectives should be retained and those that do not no matter how entrenched in practice or embedded in texts should be discarded or reformed Recently several scholars have questioned the maqa id theory arguing that it is designed not to reform laws but to support existing power structures They warn that adopting the maqa id wholesale would set the reform project back ensuring that inherited Islamic laws are never fully reformed to agree with contemporary values like gender egalitarianism and universal human rights The Objectives of Islamic Law The Promises and Challenges of the Maqa id al Shari a captures the ongoing debate between proponents and skeptics of the maqa id theory It raises some of the most important issues in Islamic legal debates today and lays out visions for the future of Islamic law **English for Research Publication Purposes**

Karen Englander, James Corcoran, 2019-02-21 Scholars who use English as an additional language confront challenges when disseminating their research in the global market of knowledge production dominated by English English for Research Publication Purposes analyses the experiences and practices of these scholars across the globe and presents critical plurilingual pedagogies as a theoretically and empirically informed means of supporting them This book Draws on an empirical study of a Latin American university s effort to mount a course that provides support to emerging and established scholars who use English as an additional language Brings theoretically informed discussions of critical pedagogies plurilingualism and identity affirmation to better serve plurilingual scholars who seek to publish their research in English language journals Provides examples of classroom activities that can be adapted and adopted to local contexts and realities in a curriculum based on critical plurilingual pedagogies Proposes future directions for research into the internationally urgent growing concerns of global scholars who produce English medium academic knowledge for the world stage Incisive and cutting edge English for Research Publication Purposes will be key reading for academics and upper level students working in the areas of ESP EAP ERPP and Applied Linguistics **NURSING: Solved Question Papers for BSc**

Nursing—4th Year (2012-1999) I. Clement, 2012 *Writing Human Factors Research Papers* Don Harris, 2016-12-05 Writing high quality papers suitable for publication within international scientific journals is now an essential skill for all

early career researchers their career progression and the reputation of the department in which they work depends upon it. However many manuscripts are rejected or sent back for major reworking not because the science they contain is in any way bad but because the same problems keep occurring in the way that the material is presented. It is one thing to write a good scientific paper however it is quite another thing to get it published. This requires some additional nous. In writing this book Don Harris draws upon nearly a quarter of a century of experience as an author and reviewer of research papers and ultimately as a journal editor. By his own admission it contains all the things he wished that his mentors had told him 25 years ago but didn't. The material in the book is drawn from many years of finding all these things out for himself usually by trial and error but mostly error. The text adopts a much lighter touch than is normally found in books of this type after all who really wants to read a book about writing research papers. The author describes his own unique approach to writing journal papers which in his own words has proved to be extremely successful. All major points are illustrated with examples from his own published works. The book is written in the form of a manual for constructing a journal manuscript read a chapter write a section. However the material it contains goes beyond just this and also describes how to select a target journal the manuscript submission process what referees are looking for in a good journal paper and how to deal with the referees' comments. Each chapter concludes with a checklist to ensure all the key elements have been addressed. **Research Paper**

,1965 Writing and Publishing Science Research Papers in English Karen Englander,2013-10-11 This book provides a comprehensive review of the current knowledge on writing and publishing scientific research papers and the social contexts. It deals with both English and non Anglophone science writers and presents a global perspective and an international focus. The book collects and synthesizes research from a range of disciplines including applied linguistics the sociology of science sociolinguistics bibliometrics composition studies and science education. This multidisciplinary approach helps the reader gain a solid understanding of the subject. Divided into three parts the book considers the context of scientific papers the text itself and the people involved. It explains how the typical sections of scientific papers are structured. Standard English scientific writing style is also compared with science papers written in other languages. The book discusses the strengths and challenges faced by people with different degrees of science writing expertise and the role of journal editors and reviewers.

Nutrition Research Drummond,Alison Murphy-Reyes,2017-02-10 Nutrition Research Concepts Applications is written for nutrition students in undergraduate and graduate programs who are beginning to develop the skills necessary to become knowledgeable research consumers conduct and document research projects and understand how to use research findings in practice. The first text of its kind to clearly explain each section of a research paper to students who are new at the process this title outlines how to read and analyze research by learning concepts such as sampling design or relative risk and then seeing these abstract ideas brought to life in actual research articles. Students also apply these concepts in Application Questions and Critical Thinking Exercises in which they write abstracts answer questions about evidenced based study data.

or use a checklist to critique a study Students also learn the nuts and bolts of searching databases for appropriate articles using systematic reviews such as the Academy of Nutrition and Dietetics *The Essentials of Effective Written Communication for Young Researchers and Tertiary Students* Laura Cheng Sue Sen B.comn,2022-05-16 The scientific article must be written in a scientific format and may seem confusing for tertiary students and young researchers especially for the beginning science writer due to its rigid structure which is so different from writing humanities One of the reasons for using this format is that it is a means of efficiently communicating scientific findings to a broad community of scientists in a uniform manner Writing a technical article or research paper is a challenging endeavour for students and young researchers Publishing your first technical article or research paper requires observation of some essential guidelines Hence the purpose of this book is to provide basic guidelines to tertiary students and young researchers using this user friendly format to help in writing a scientific article This book focuses on the essential steps for the publication of a technical article and research paper for tertiary students and young researchers **Research Methodology** Vinayak Bairagi,Mousami V. Munot,2019-01-30 This book offers a design research methodology intended to improve the quality of design research its academic credibility industrial significance and societal contribution by enabling more thorough efficient and effective procedures Teaching & Research Aptitude Solved Papers YCT Expert Team , 2023 24 NTA UGC NET JRF Teaching Research Aptitude 82 Sets **Envisioning the Future of Online Learning** Johan Eddy Luaran,Janudin Sardi,Anealka Aziz,Nor Aziah Alias,2016-06-10 This book shares insights into the various ways technology can be used for educational purposes utilizing an approach suitable for both novice and advanced practitioners in this niche area It features selected papers presented at the International Conference on e Learning 2015 ICeL 2015 where professionals discussed how technology can not only serve as a tool in the classroom but as the classroom itself As the title Envisioning the Future of Online Learning suggests this book showcases current best practices in the field of e learning where technology has been leveraged to re engineer the landscape of education particularly in the context of Malaysia **Playing with Density** Anita Grams,2018-11-23 The revised Swiss Spatial Planning Law which came into effect in 2014 and the minimum strategy of inward development before outward development obligate municipalities to direct their spatial development to ward existing largely built up spaces and to coordinate building zone dimensioning across municipal boundaries For many small and medium sized municipalities in Switzerland this means changing thought patterns with regard to spatial planning practice A major element of inward development is the constructional densification of existing settlement areas However especially in small and medium sized municipalities densification is confronted with numerous problems such as insufficient acceptance of dense building typologies mobilisation obstacles for reserves secured under building law and the lack of thought patterns concerning inward development This is where the research in this volume sets in leading to the hypothesis that inward development in the main settlement areas of Switzerland is possible but that the existing formal instruments of spatial

planning themselves are insufficient for this purpose An estimation of the reserves in the Swiss Plateau shows that there is a theoretical capacity for accommodating around 0.5 million additional inhabitants there is without having to adjust the formal instruments Around two thirds of all reserves are located in small and medium sized municipalities with fewer than 10 000 inhabitants which moreover make up 93% of all administrative units of the Swiss Plateau In addition it is estimated that half of the floor area reserves lie on already built up though underused plots In the main settlement area of Switzerland a systematic density eschewal is taking place in small and medium sized municipalities In order to help inward development achieve a breakthrough in the main settlement area in Switzerland informal procedures are needed in these municipal categories that result in a revision of local planning In doing so informal procedures should not negate the specific organisational form of small and medium sized municipalities namely the militia system of governance but should rather adapt to this principle An inward development compass brings together the knowledge existing in the militia system of governance forming the informal prelude to the local planning revision of the third generation in small and medium sized municipalities The inception of the revised spatial planning law and its stipulations on inward development and densification confronts the three large scale areas of Switzerland with different challenges Yet driven by changes in the fields of demographics energy and finances the initial problems will manifest themselves most clearly in the Swiss Plateau If the required transformation process is to succeed a more pronounced orientation of policy and spatial planning towards the initial problems in small and medium sized municipalities is necessary

Online Marketing and its critical success factors
Katie Maingi, 2014-01-22 Document from the year 2012 in the subject Communications Public Relations Advertising Marketing Social Media language English abstract Online marketing has become a popular technique that helps organizations to reach global customers Though most organizations are using wide range of online marketing strategies some of them are unable to identify various factors that contribute to success of online marketing To help organizations to identify these critical success factors this research paper has analyzed various critical success factors to create a framework for organizations to successfully execute online marketing campaign This paper also focused on identifying major online technique used by organizations and benefits of centralized and decentralized marketing environments Secondary information has been the data was collected by using a questionnaire which consists of 8 questions and 3 marketing managers of selected US based organizations

A Disciplinary Blueprint for the Assessment of Information Literacy
Dorothy Anne Warner, 2008-06-30 Have you ever worried that literature on library instruction deals more with methods of assessing student attitude than student learning If so you ll be glad to know someone is doing something about it Eight unique disciplinary modules are presented each identifying a series of information literacy objectives developed in accordance with Bloom s Taxonomy of Cognitive Objectives A substantive curriculum map embedded within each module lists the sequence of courses required for the disciplinary major and the level at which the course is taught sophomore junior

etc notes whether information literacy instruction is currently taught by the library for that particular course and delineates the specific information literacy learning objectives the students must master in order to fulfill the course assignments Collaborative responsibility for teaching the information literacy skills is also outlined with specific recommendations for ways the library can strengthen its support for the specific discipline In addition assessment methodologies are identified including scoring rubrics designed specifically for the disciplinary information literacy objectives An indispensable resource for academic librarians ready to take the leap from episodic reactive response to programmatic sequenced integration into the curriculum **Intelligent Computing and Optimization** Pandian Vasant,Vladimir Panchenko,Elias
