

WORK SAFELY—FOLLOW THESE RULES

This symbol is used to call your attention to instructions concerning your personal safety. Be sure to observe and follow these instructions.

Before hitching or adjusting the drill, shut off the tractor engine and set the parking brake.

When hitching the drill, lock the tractor drawbar in the center position and attach the safety chain.

Lower the furrow openers onto the ground before lubricating the drill.

Keep all safety shields in place when the machine is operating.

CAUTION: Maximum recommended towing speed for your drill is 20 mph (32 km/h) with hopper empty.

Lock up both markers in the transport position when not in use.

Place a "slow moving vehicle" emblem on the rear of the drill before driving on public roads.

Do not allow anyone to ride on the drill when in motion. The footboard is provided for loading the hopper only.

Keep arms and legs clear of the furrow opener and marker disks at all times. These disks can cause serious injury.

Do not hold the hydraulic cylinder while extending or retracting it.

Keep hands, feet and clothing away from all moving parts. Wear close-fitting clothing for added safety.

Lock the tractor brake pedals together when transporting the drill on public roads. Keep the tractor in gear when going downhill.

Ensure that tractor is hitched to drill before filling hopper. Never unhook a loaded drill without blocking up footboards.

IMPORTANT: See also "Precautions When Using Chemicals" on page 3.
