[Shelby Mustang Fifty Years](#) Colin Comer, 2014-09-23 Celebrate America's premier performance car From the original Shelby Mustang GT350 to today's 700 plus horsepower GT500 Carroll Shelby and Ford Motor Co have defined high performance with their Shelby Mustangs Shelby built his Mustangs from 1965 until 1970 at a time when it seemed that the muscle car was a dying breed Then an odd thing happened people began to realize the classic nature of the car almost as

soon as Shelby stopped building them and prices began to climb By the end of the decade the Shelby Mustang had become one of the first muscle cars to attain classic status along with the price hike that went along with that recognition Prices continued to rise into the next century a 1967 Shelby Mustang GT500 fetched 451 000 at auction in 2006 at which time production of new Shelby Mustangs began for the first time in 36 years Since then prices have cooled a bit but not nearly as much as they have for other muscle cars Shelby Mustangs still occupy the top slot at most auctions and Shelby continues to build the popular modern versions of the Mustang today This book tells the story of these amazing cars from the initial collaboration with Ford to today s record setting high tech muscle cars Publisher description
