Oxford Textbook Of Correctional Psychiatry:

Oxford Textbook of Correctional Psychiatry Robert L. Trestman, Kenneth L. Appelbaum, Jeffrey L. Metzner, 2015 This textbook brings together leading experts to provide a comprehensive and practical review of common clinical organisational and ethical issues in correctional psychiatry Oxford Textbook of Correctional Psychiatry Professor Robert Trestman L, Professor Kenneth Appelbaum, Professor Jeffrey Metzner, 2015-02-26 Correctional psychiatry has received increasing recognition as an area of practice with unique skills and knowledge The Oxford Textbook of Correctional Psychiatry brings together American and international experts to provide a comprehensive overview of the field Students and psychiatric residents will find basic information that prepares them for clinical rotations and psychiatrists working in jails and prisons will find a detailed review of the complex issues that arise in these settings The Oxford Textbook of Correctional Psychiatry contains 71 chapters divided into 14 sections The first three sections address history structure and processes including chapters on case law human rights ethics organization and funding of systems and stages of patient management that cover initial assessments through re entry The next three sections review in turn a broad array of management issues emergencies and psychopharmacology topics Among other topics these sections include chapters on sleep detoxification reassessment of community diagnoses and treatments diversion programs levels of care malingering substance use within facilities and formulary management Section seven has chapters on common psychiatric disorders relevant medical disorders and pain management Sections eight through ten focus on psychotherapeutic options suicide risk management and addictions treatment Chapters on aggression self injury and other behavioral challenges appear in Section eleven Section twelve reviews unique assessment and treatment needs of many distinct population groups Special topics such as forensics psychological testing sexual assaults quality improvement training and research appear in Section thirteen followed by a section devoted to current resources in correctional healthcare The range of topics covered and the number of prominent contributors set this book apart from other available resources Readers at all stages of their careers will gain the depth of understanding and practical information they need to approach all of the common clinical organizational and ethical challenges they face Oxford Textbook of Migrant Psychiatry Dinesh Bhugra, 2021-02-04 Migrant psychiatry is an evolving subdiscipline within cultural psychiatry that deals with the impact of migration on the mental health of those who have migrated and those who work with these groups and provide services to them Stress related to migration affects migrants and their extended families either directly or indirectly The process of migration is not just a phase but leads on to a series of adjustments including acculturation which may occur across generations Factors such as changes in diet attitudes and beliefs and overall adjustment are important in settling down and making the individuals feel secure This period of adjustment will depend upon the individual migrant's pre migration experiences migration process and post migration experiences but also upon an individual's personality social support and emotional response to migration Socio demographic

factors such as age gender educational and economic status will all play a role in post migration adjustment In order to understand the impact on individuals not only the type of migration and different stressors but also the types of psychological mechanisms at a personal level and the resources and processes at a societal level need to be explored Despite the number of refugees and asylum seekers around the world increasing at an astonishing rate the mental health needs of migrants are often ignored by policy makers and clinicians The Oxford Textbook of Migrant Psychiatry is designed to serve as the comprehensive reference resource on the mental health of migrants bringing together both theoretical and practical aspects of the mental health needs of refugees and asylum seekers for researchers and professionals Individual chapters summarise theoretical constructs related to theories of migration the impact of migration on mental health and adjustment collective trauma individual identity and diagnostic fallacies The book also covers the practical aspects of patient management including cultural factors ethnopsychopharmacology therapeutic interaction and therapeutic expectation and psychotherapy Finally the book will examine special clinical problems and special patient groups Part of the authoritative Oxford Textbooks in Psychiatry series this resource will serve as an essential reference for psychiatrists mental health professionals general practitioners primary care physicians social workers policy makers and voluntary agencies dealing with refugees and asylum seekers
