Introduction:

The course encourages *reading, thinking, talking, and writing* about how political science is political. The focus will be on Scientism of Politics. Throughout this course we will be focusing on five main learning objectives;

- i. Appreciating history - Understanding the present state, paying attention to the past.
- ii. Surveying the landscape –Political Science as a systematic study of all things political (countries-cities-corporations).
- iii. How study of politics uses methodological tools.
- iv. Thinking critically – Theories make us think about politics and evaluate it. Not all Political Scientists come to the same conclusions about politics. Making reasoned arguments about what we think and why.
- v. Communicating effectively - mastering all of the previous objectives won't get us very far if we can't communicate our knowledge and reasoned opinions to others through clear and concise communication.

Course Objectives;

The objective of this course is;

- To provide students with an empirical tool to research in Political Science.
- To learn how political scientists formulate research questions, develop theories to answer those questions, and use empirical techniques to test the validity of those theories.
- To learn how to formulate a theory and test for evidence.
