Politics Female Circumcision Egypt Construction:

The Politics of Female Circumcision in Egypt Maria Frederika Malmström, 2016-03-22 The percentage of women aged 15-49 in Egypt who have undergone the procedure of female circumcision or genital mutilation cutting (FGM/C) stands at 91% according to the latest research carried out by UNICEF. Female circumcision has become a global political minefield with Western interventions affecting Egyptian politics and social development, not least in the area of democracy and human rights. Maria Frederika Malmström employs an ethnographic approach to this controversial issue with the aim of understanding how female gender identity is continually created and re-created in Egypt through a number of daily practices and the central role which female circumcision plays in this process. Viewing the concept of agency as critical to the examination of social and cultural trends in the region, Malmström explores the lived experiences and social meanings of circumcision and femininity as narrated by women from Cairo. It is through the examination of the voices of these women that she offers an analysis of gender identity in Egypt and its impact on women's sexuality. *The Politics of Female Circumcision in Egypt* Maria Frederika Malmström, 2016-03-22 The percentage of women aged 15-49 in Egypt who have undergone the procedure of female circumcision or genital mutilation cutting (FGM/C) stands at 91% according to the latest research carried out by UNICEF. Despite criminalising the practice in 1985, FGM continues undetected and often underground. This monograph provides a unique insight into survivor's attitudes towards FGM, as well as the criminalisation of a culturally embedded practice. Some of the narratives might be deeply uncomfortable as women sympathise and even uphold the practice, whilst others viscerally describe the trauma and pain that they endured. Digging deeper into efforts to eliminate FGM, professionals at the coalface of the end FGM movement provide their views on whether the practice can ever be eradicated. This volume explores the key themes that emerged from the well-publicised criminal trials in the UK and the barriers that prevent the law from working effectively. One of the obstacles that are examined further is the legal double standard in criminalising FGM whilst permitting female genital cosmetic surgery, which incites hostility and anger amongst FGM-performing communities. Whilst ending FGM is imperative, this enlightening

work reflects on the unintended consequences that stem from punitive efforts to criminalise a practice performed by often Black migrant communities Women describe their experiences of racism and Islamophobia in a context of police surveillance and hyperbolic media narratives In an effort of encouraging the abandonment of FGM this publication highlights the need for the law to be accompanied by education initiatives at a grass root level

Avenues of Participation Diane Singerman,2020-09-01 Intentionally excluded from formal politics in authoritarian states by reigning elites do the common people have concrete ways of achieving community objectives Contrary to conventional wisdom this book demonstrates that they do Focusing on the political life of the sha b or popular classes in Cairo Diane Singerman shows how men and women develop creative and effective strategies to accomplish shared goals despite the dominant forces ranged against them Starting at the household level in one densely populated neighborhood of Cairo

Singerman examines communal patterns of allocation distribution and decision making Combining the institutional focus of political science with the sensitivities of anthropology she uncovers a system of informal networks supported by an informal economy that constitutes another layer of collective institutions within Egypt and allows excluded groups to pursue their interests Avenues of Participation traces this informal system from its grounding in the family to its influence on the larger polity Discussing the role of these networks in meeting fundamental needs in the community such as earning a living reproducing the family saving and investing money and coping with the bureaucracy Singerman demonstrates the surprising power these excluded people wield While the government has reduced politics to the realm of distribution to protect itself from challenges she argues that the popular classes in Cairo as consumers of goods and services have turned exploiting the government into a fine art

Islamic Bioethics: Problems and Perspectives DARIUSCH ATIGHETCHI,2006-12-02 This book presents a critical analysis of the debate at the religious legal and political level sparked off by the introduction of new biomedical technologies cloning genetics organ transplants IVF etc in Muslim countries It compares the positions of classic Muslim law and contemporary religious authorities laws in Muslim countries the attitudes and concrete behaviour of populations families and individuals as well as the regulations of medical associations bioethics committees etc The result is a mosaic of positions which are often different including from the point of view of ethics but all in pursuit of legitimisation according to the Koran and the Shari a The work has an interdisciplinary approach drawing on law sociology anthropology politics and the history of science For this reason it will be of interest to scholars and operators in a wide variety of disciplines and fields

Islamic Law and Human Rights Moataz El Feghery,2016-08-17 This book explores the development of the Muslim Brotherhood s thinking on Islamic law and human rights and argues that the Muslim Brotherhood has exacerbated rather than solved tensions between the two in Egypt The organisation and its scholars have drawn on hard line juristic opinions and reinvented certain concepts from Islamic traditions in ways that limit the scope of various human rights and advocate for Islamic alternatives to international human rights The Muslim Brotherhood s practices in opposition and in power have been consistent with its literature As an opposition party it embraced human rights language in its struggle against an authoritarian regime but advocated for broad restrictions on certain rights However its recent and short lived experience in power provides evidence of its inclination to reinforce restrictions on religious freedom freedom of expression and association and the rights of religious minorities and to reverse previous reforms related to women s rights The book concludes that the peaceful management of political and religious diversity in society cannot be realised under the Muslim Brotherhood s model of a Shari a state The study advocates for the drastic reformation of traditional Islamic law and state impartiality towards religion as an alternative to the development of a Shari a state or exclusionary secularism This transformation is however contingent upon significant long term political and socio cultural change and it is clear that successfully expanding human rights protection in Egypt requires not the exclusion of Islamists but their transformation

Islamists still have a large constituency and they are not the only actors who are ambivalent about human rights. Meanwhile Islamic law also appears to continue to influence Egypt's law. The book explores the prospects for certain constitutional and institutional measures to facilitate an evolutionary interpretation of Islamic law provide a baseline of human rights and gradually integrate international human rights into Egyptian law.

By comparing Islam and the rule of law in these two nations, one Sunni and Arab speaking, the other Shi'ite and Persian speaking, this volume enriches the current debate on Islam and democracy, making for a more nuanced understanding and appreciation of differences with the Muslim world and providing an indispensable background for understanding the Green movement in Iran since 2009 and the Egyptian revolution of 2011.

The Human Rights Turn and the Paradox of Progress in the Middle East Mishana Hosseinioun, 2017-10-11 This book aims to shift

the limited and often negative popular understanding of the Middle East's place in the world by chronicling the region's contributions to the international order rather than disorder and to the development of the international human rights system. It elucidates the many paradoxes that make the Middle East and North Africa (MENA) region both a troubling place and also a region brimming with great potential for peace, prosperity and progress. By demonstrating the paradox of human rights progress amid regress, the book tells a radically new and more hopeful side of the story of the region that has largely been obfuscated and omitted from the chronicles of history. In so doing, it shows that fostering a human rights culture is not only possible for all, universally, it is inevitable.

Gender and the Social Construction of Illness Judith Lorber, Lisa Jean Moore, 2002-08-20. Judith Lorber and Lisa Jean Moore consider the interface between the social institutions of gender and Western medicine in this brief, lively textbook. They offer a distinct feminist viewpoint to analyze issues of power and politics concerning physical illness. SIGNS labeled the first edition a rich and imaginative work. In the extensively revised second edition of this successful text, the authors add chapters on disability and genital surgeries. They also update and expand their discussions of social epidemiology, AIDS, the health professions, PMS, menopause and feminist health care. For a creative, feminist-oriented alternative to traditional texts on medical sociology, medical anthropology and the history of medicine, this is an ideal choice.

The Rule of Law: History, Theory and Criticism Pietro Costa, Danilo Zolo, 2007-05-06. Authors Costa and Zolo share the conviction that a proper understanding of the rule of law today requires reference to a global, problematic horizon. This book offers some relevant guides for orienting the reader through a political and legal debate where the rule of law and the doctrine of human rights is a concept both controversial and significant at the national and international levels.
