 General Motors Corporation,1998 **Steps of the Plowman** Dale Miettinen,2004 In the late spring and early summer of
 2002 a serial killer is on the prowl in a city of almost a million people By mid June there are five bodies Uniquely there is no
 public panic The reason The only people aware of the murders are a small group of police investigators Such secrecy was
 implemented not only to avoid hysteria but because rumors exist that the perpetrator is either a current or former member of
 the local police Another cause for the close confidentiality emanates from the fact that all five victims were high risk
 predatory pedophiles recently released from prison The story deals in part with the personalities of the killer his victims and
 the impact on the people that were preyed upon by these pedophiles As the tale unfolds there are self examinations by the
 police prosecutors officials in the justice system and a young defense lawyer In addition a member of the judiciary is
 persuaded that the entire system has contaminated the law that allegedly protects children from monsters Political will and
 effectiveness and the ever present media also surface The five bodies are discovered within a ten day period Physical
 evidence is practically non existent Another contributing factor surrounding the pressure on the police team to solve the
 murders as quickly as possible concerns the perception of their motivation to interrupt the vigilante before he s finished The
 investigators don t want to be seen as dragging their ass The initial stages of the investigation are discouraging but as the
 police plod their way a description of a suspect emerges His identity of course is a different story A profile develops with a
 full description of an older man seen in the company of the first three local victims hours before they are found dead The only
 thing is who the hell is he It soon becomes clear that the old man has inside help on locating the pedophiles The police hope
 that it s not someone from their department A break and a coincidence provide identification of the suspect and a widowed
 senior citizen becomes the focus of the investigation The police team sets up two types of surveillance and obtains a
 photograph of the man His photo is identified without any hesitation by three witnesses and later two more A circumstantial
 case is presented to the prosecutors They believe enough evidence exists and like the police feel that physical evidence will
 surface after the arrest Wrong An omission perhaps inadvertent is discovered by the old man s legal aid lawyer in the police
 report given to the prosecutor s office This is enough to secure the freedom of the accused judicial interim release Two
 nights later the old man rehabilitates another dangerous pedophile at his own home This little escapade becomes more

complicated and results in solidifying a case against the old man His lawyer has other plans however Her client tells her about his old friend with the justice department whose 5 year old daughter was abducted and murdered in 1998 The friend s wife was now in a mental hospital and the friend s health was slowly ebbing away since there had never been any arrest or any kind of closure The friend volunteered to work with the old man s lawyer and make a proposal to his life long friend a judge in the Court of Queen s Bench The proposal suggests that if this matter were to get into court the young lawyer would call every police officer jail guard prison psychiatrist victim and the families of every victim of all six pedophiles These witnesses would describe the impact of the intrusion of each pedophile since and including his first conviction A hearing is arranged in front of the judge much to the chagrin of a Member of Parliament and an associate of the legislature This is because they haven t yet figured it out A seventh murder is discovered early in the morning on the day of the hearing As if things were
