human existence but as part of our daily lives To explain this millennial shift away from the traditionally dark Protestant post Enlightenment Gothic Nelson studies the complex arena of contemporary Gothic subgenres that take the form of novels films and graphic novels She considers the work of Dan Brown and Stephenie Meyer graphic novelists Mike Mignola and Garth Ennis Christian writer William P Young author of The Shack and filmmaker Guillermo del Toro She considers twentieth century Gothic masters H P Lovecraft Anne Rice and Stephen King in light of both their immediate ancestors in the eighteenth century and the original Gothic the late medieval period from which Horace Walpole and his successors drew their inspiration Fictions such as the Twilight and Left Behind series do more than follow the conventions of the classic Gothic novel They are radically reviving and reinventing the transcendental worldview that informed the West s premodern era As Jesus becomes mortal in The Da Vinci Code and the child Ofelia becomes a goddess in Pan s Labyrinth Nelson argues that this unprecedented mainstreaming of a spiritually driven supernaturalism is a harbinger of what a post Christian religion in America might look like
