Protecting Children Online? Tijana Milosevic, 2018-02-02 A critical examination of efforts by social media companies including Facebook Twitter Snapchat and Instagram to rein in cyberbullying by young users High profile cyberbullying cases often trigger exaggerated public concern about children's use of social media Large companies like Facebook respond by pointing to their existing anti bullying mechanisms or coordinate with nongovernmental organizations to organize anti cyberbullying efforts Do these attempts at self regulation work In this book Tijana Milosevic examines the effectiveness of efforts by social media companies including Facebook Twitter YouTube Snapchat and Instagram to rein in cyberbullying by young users Milosevic analyzes the anti bullying policies of fourteen major social media companies as recorded in companies corporate documents draws on interviews with company representatives and e safety experts and details the roles of nongovernmental organizations examining their ability to provide critical independent advice She draws attention to lack of transparency in how companies handle bullying cases emphasizing the need for a continuous independent evaluation of effectiveness of companies mechanisms especially from children's perspective Milosevic argues that cyberbullying should be viewed in the context of children's rights and as part of the larger social problem of the culture of humiliation Milosevic looks into five digital bullying cases related to suicides examining the pressures on the social media companies involved the nature of the public discussion and subsequent government regulation that did not necessarily address the problem in a way that benefits children She emphasizes the need not only for protection but also for participation and empowerment for finding a way to protect the vulnerable while ensuring the child's right to participate in digital spaces

Privacy, Big Data, and the Public Good Julia Lane, Victoria Stodden, Stefan Bender, Helen Nissenbaum, 2014-06-09 Massive amounts of data on human beings can now be analyzed Pragmatic purposes abound including selling goods and services winning political campaigns and identifying possible terrorists Yet big data can also be harnessed to serve the public good scientists can use big data to do research that

improves the lives of human beings improves government services and reduces taxpayer costs In order to achieve this goal researchers must have access to this data raising important privacy questions What are the ethical and legal requirements What are the rules of engagement What are the best ways to provide access while also protecting confidentiality Are there reasonable mechanisms to compensate citizens for privacy loss The goal of this book is to answer some of these questions The book's authors paint an intellectual landscape that includes legal economic and statistical frameworks The authors also identify new practical approaches that simultaneously maximize the utility of data access while minimizing information risk

Brexit and the Digital Single Market Alison Harcourt, 2023-07-02 The Digital Single Market DSM 2014-19 was the largest component of the European Union's Single Market programme comprising numerous Directives Regulations and instruments aimed at facilitating cross border digital services With one fifth of service exports stemming from the digital sector the DSM was vital for the UK with the EU representing its largest export market Brexit and the Digital Single Market examines the important historical role of the UK in DSM development the consequences of Brexit for the UK's digital sector and future EU and UK policy trajectories Assessing both vertical sectors and horizontal policies this book demonstrates how the UK acted as a policy entrepreneur in pushing for a deregulatory framework by exploiting temporal events historically The current challenges presented by Brexit are discussed in detail closely observing topics such as the loss of the country of origin principle and freedom of movement changes to copyright and VAT regimes complications with cross border data transfer administrative procedures and international taxes on digital products and services Brexit and the Digital Single Market illuminates how the UK continues to innovate in the digital sector but is constrained by external factors both at EU and global levels It also considers how EU policy is taking a new direction in its 2020 Digital Strategy programme which leans towards greater protection of European champions and digital sovereignty a tightening of its data protection regime and greater regulatory intervention in digital markets Timely and unprecedented Brexit and the Digital Single Market is the first volume to comprehensively cover the implications of Brexit for the EU's DSM This is an essential read for students and academics in political science and law and those from the civil service and government working within the digital sector

The Need for Humility in Policymaking Stefanie Haefele, Anne Hobson, 2019-08-22 Regulations impact a wide array of market and social activities that influence our daily lives Regulations are attempts to correct perceived market failures caused by information asymmetries externalities and principal agent problems and to provide public goods which would otherwise be underprovided Government actors are responsible for identifying these issues weighing the costs and benefits of intervention and designing and implementing regulations to improve society Good regulations help mitigate issues in the economy without inciting new problems and without the costs exceeding the benefits of intervention This requires intensive analysis and an awareness of the complexities of social life Our society is complex and dynamic where people face knowledge and incentive problems whether in the market politics or civil society By examining this complex reality we can better

understand why regulations arise and persist and the challenges of reform We argue that this approach to policymaking and policy analysis requires humility an acknowledgment of the challenges we face when intervening in our society This volume intends to cultivate an appreciation for the complexity of human decision making and the incentives that drive human behavior By examining specific policy changes it will delve into the effects of and lessons learned from regulations in financial markets computer and internet governance and health care innovation and delivery This volume will be of interest to students scholars and policymakers who seek to understand the complexities of regulation in a dynamic social world

Technoliberalism and the End of Participatory Culture in the United States Adam Fish, 2017-04-18 This new book examines whether television can be used as a tool not just for capitalism but for democracy Throughout television's history activists have attempted to access it for that very reason New technologies cable satellite and the internet provided brief openings for amateur and activist engagement with television This book elaborates on this history by using ethnographic data to build a new iteration of liberalism technoliberalism which sees Silicon Valley technology and the free market of Hollywood end the need for a politics of participation

Soft Power Made in China Claire Seungeun Lee, 2018-09-25 This book analyzes the ways in which China's soft power growth faces dilemmas in East Asia through both online and offline platforms One dilemma for China's transnational soft power field expansion lies in the intersection of its source and receiving countries The author discusses how transnational audiences consumption and reception of Chinese television series are shaped by domestic factors with interpretations of and desires for different forms of capital further inhibiting the foreign export of these series Another dilemma is the outsourced soft power While Hong Kong and Taiwan play significant roles as outsourced soft power mediators their under established emerging digital media platforms have yet to meet the expectations of transnational audiences in a virtual transnational soft power field Grounded in the author's multi site field research focused on television spheres *Soft Power Made in China* argues that China's soft power paradox in South Korea and Japan two quasi Sinophone countries is not due to a lack of state level strategy but linked to soft power pathways that rely on production in one source country and both distribution and reception in a receiving country
