Reflective writing is used in different ways in different health professions, but in all of them it is required to think carefully and critically about an experience or a book. The underlying theme of reflective writing is the 'self', which involves a thorough examination of one's relationship to the subject. The process of reflective writing involves remembering and thinking about an experience or event and then writing about it.

According to [Research Prospect](#), nursing reflective essay involves choosing a real or hypothetical situation or event that has inspired you in some way.
