Snow, 2015-09-04 This comprehensive text is intended for the junior senior level course in North American Archaeology. Written by accomplished scholar Dean Snow, this new text approaches native North America from the perspective of evolutionary ecology. Succinct streamlined chapters present an extensive groundwork for supplementary material or serve as a core text. The narrative covers all of Mesoamerica and explicates the links between the part of North America covered by the United States and Canada and the portions covered by Mexico, Guatemala, Belize, and the Greater Antilles. Annual Report of the Scientific Society of San Antonio Scientific Society of San Antonio, 1905 List of members in each report **The Montana State Constitution** Professor Emeritus Larry Ellison, Associate Professor Fritz Snyder, 2011-04-18 Montana's state constitution was created during the early 1970s. Progressive, innovative, and pragmatic, it combines a strong concern for individual rights, personal liberty, and individual dignity while seeking to keep government open and responsive to the will of the people of Montana. It also stresses rights to a clean and healthful environment. The Montana State Constitution is the first reference guide to offer an in-depth analysis of the state's constitutional history. In it, Larry Ellison and Fritz Snyder provide the text of the constitution, its meaning, and its legal interpretations. It is an excellent research tool for those interested in Montana's constitutional history and case law, and it includes a comprehensive bibliographic essay dealing with available primary and secondary research sources. Previously published by Greenwood, this title has been brought back in to circulation by Oxford University Press with new verve. Reprinted with standardization of content organization in order to facilitate research across the series, this title, as with all titles in the series, is set to join the dynamic revision cycle of *The Oxford Commentaries on the State Constitutions of the United States*. The *Oxford Commentaries on the State Constitutions of the United States* is an important series that reflects a renewed international interest in constitutional history and provides expert insight into each of the 50 state constitutions. Each volume in this innovative series contains a historical overview of the state's constitutional development, a section-by-section analysis of its current constitution, and a comprehensive guide to further research. Alan Tarr, Director of the Center on State Constitutional Studies at Rutgers University, this series provides essential reference tools for understanding state constitutional law.
