

A line drawing of the human heart, viewed from the front and slightly to the left. The left ventricle is the large, rounded chamber on the right side of the diagram. The atrioventricular valve is located between the left atrium and the left ventricle. Three major blood vessels are labeled: X is the pulmonary artery, which branches into the left and right lungs; Y is the pulmonary vein, which carries oxygenated blood from the lungs to the left atrium; and Z is the aorta, which carries oxygenated blood from the left ventricle to the rest of the body.
