Political Writings The I Tatti Renaissance Library:

European Thought and Culture, 1350-1992 Michael J. Sauter, 2021-06-06 This book explores the main currents of European thought between 1350 and 1992 which it approaches in two principal ways culture as produced by place and the progressive unmooring of thought from previously set religious and philosophical boundaries The book reads the period against spatial thought s history spatial sciences such as geography or Euclidean geometry to argue that Europe cannot be understood as a continent in intellectual terms or its history organized with respect to traditional spatial geographic categories Instead we need to understand European intellectual history in terms of a culture that defined its own place as opposed to a place that produced a given culture It then builds on this idea to argue that Europe s overweening drive to know more about humanity and the cosmos continually breached the boundaries set by venerable religious and philosophical traditions In this respect spatial thought foregrounded the human at the unchanging s expense with European thought slowly becoming unmoored as it doggedly produced knowledge at wisdom s expense Michael J Sauter illustrates this by pursuing historical themes across different chapters including European thought s exit from the medieval period the Renaissance the Reformation the Scientific Revolution the Enlightenment and Romanticism the Industrial Revolution and war and culture offering a thorough overview of European thought during this period The book concludes by explaining how contemporary culture has forgotten what early modern thinkers such as Michel de Montaigne still knew namely that too little skepticism toward one s own certainties makes one a danger to others Offering a comprehensive introduction to European thought that stretches from the late fourteenth to the late twentieth century this is the perfect one volume study for students of European intellectual history

The Renaissance in Italy Kenneth Bartlett, 2019-11-15 The Italian Renaissance has come to occupy an almost mythical place in the popular imagination The outsized reputations of the best known figures from the period Michelangelo Niccolo Machiavelli Lorenzo the Magnificent Pope Julius II Isabella d Este and so many others engender a kind of wonder How could so many geniuses or exceptional characters be produced by one small territory near the extreme south of Europe at a moment when much of the rest of the continent still labored under the restrictions of the Middle Ages How did so many of the driving principles behind Western civilization emerge during this period and how were they defined and developed And why is it that geniuses such as Leonardo Raphael Petrarch Brunelleschi Bramante and Palladio all sustain their towering authority to this day To answer these questions Kenneth Bartlett delves into the lives and works of the artists patrons and intellectuals the privileged educated influential elites who created a rarefied world of power money and sophisticated talent in which individual curiosity and skill were prized above all else The result is a dynamic highly readable copiously illustrated history of the Renaissance in Italy and of the artists that gave birth to some of the most enduring ideas and artifacts of Western civilization

Ancient Latin Epics in Girolamo Vida's Christiad Stefano Cianciosi, 2025-09-25 The *Christiad* 1535 is a Neo Latin epic by the Italian Renaissance writer Girolamo Vida based on the Gospels and written at the behest of Pope Leo X Long seen as a Christian Aeneid it emerges in this study as a far more complex work demonstrating that while Virgil remains the main model Vida also engages deeply with Lucretius Ovid Lucan Silius Italicus and Statius By examining Vida's imitative techniques and integration of multiple epic models this monograph reassesses the *Christiad's* relationship with the ancient Latin epic tradition In doing so it sheds new light on the afterlife of these classical poems as print made them more widely available

Nicolaus Cusanus on Faith and the Intellect K. Meredith Ziebart, 2013-11-14 In *Nicolaus Cusanus on Faith and the Intellect* K M Ziebart argues convincingly that Cusanus epistemology was a direct response to late medieval debates over the relation between faith and reason one which sought to resolve these debates by introducing a controversially strong integration of philosophy and theology By examining his works in the context of debates with his peers Ziebart shows how and why Cusanus came to articulate a theory of knowledge in which faith is posited as inherent to the very structure of mind as the *vis iudiciaria* or power of judgment This well grounded study sheds new light on the Cusan philosophy and expands our view of a crucial liminal period in European intellectual
