will guide today's hikers and armchair travellers through the stories of historic routes in the Canadian Rockies. When authors Emerson Sanford and Janice Sanford Beck began backpacking together nearly 20 years ago, they often wondered whose footsteps they were tracing and how today's trails through the Rockies came to be. In *Life of the Trail*, they share their findings with adventurers and history buffs alike. The series divides the Rockies between Mount Robson and the Kananaskis Lakes into eight regions based on geographical boundaries that influenced 19th-century travellers. Within each region, the authors share the stories of those who recorded their travels along various routes between the time of the pioneers and the 1930s. Never before has such a thorough history been presented in this manner, enabling adventurers to follow the history of the Rockies one route at a time. For those tempted to follow in the footsteps of these historic adventurers, Emerson has hiked each and every trail in order to provide a detailed trail guide and interesting anecdotes from his own experiences. Each volume is rounded out with maps and colour photographs, both historical and contemporary, to further stimulate the imagination.

Life of the Trail 2: Historic Hikes in Northern Yoho National Park follows the trails of fur traders La Gasse and Le Blanc, the Palliser Expedition, Tom Wilson, J. J. McArthur, Professor Jean Habel, Walter Wilcox, C. S. Thompson, David Thompson, Jimmy Simpson, and Jack Brewster. Along the way, the reader will journey past pristine lakes and glaciers that have become legendary throughout the world, discovering the stories behind routes through the mountain towns of Lake Louise and Field, over Howse, Amiskwi, Bow, and Burgess passes, and along Yoho, Emerald, and Castleguard rivers.

Continental Divide
Maurice Isserman, 2016-04-21

This magisterial and thrilling history argues that the story of American mountaineering is the story of America itself. In *Continental Divide*, Maurice Isserman tells the history of American mountaineering through four centuries of landmark climbs and first ascents. Mountains were originally seen as obstacles to civilization; over time, they came to be viewed as places of redemption and renewal. The White Mountains stirred the transcendentalists; the Rockies and Sierras pulled explorers westward toward Manifest Destiny. Yosemite inspired the early environmental conservationists. Climbing began in North America as a pursuit for lone eccentrics but grew to become a mass participation sport. Beginning with Darby Field in 1642, the first person to climb a mountain in North America, Isserman describes the exploration and first ascents of the major American mountain ranges from the Appalachians to Alaska. He also profiles the most important American mountaineers, including such figures as John C. Fremont, John Muir, Annie Peck, Bradford Washburn, Charlie Houston, and Bob Bates, relating their exploits both at home and abroad. Isserman traces the evolving social, cultural, and political roles mountains played in shaping the country. He describes how American mountaineers forged a brotherhood of the rope, modeled on America's unique democratic self-image that characterized climbing in the years leading up to and immediately following World War II. And he underscores the impact of the postwar rucksack revolution, including the advances in technique and style made by pioneering dirtbag rock climbers. A magnificent, deeply researched history, *Continental Divide* tells a story of adventure and aspiration in the high peaks that makes a vivid case for the importance of mountains to

American national identity *Mountaineering Literature* Jill Neate, 1986 Long established as a standard reference work worldwide this is a thorough bibliography of all mountaineering books that are of practical use to climbers or for reading pleasure or historical interest Documenting more than 2000 books of mountaineering literature it also includes nearly 900 climber s guidebooks a sampling of more than 400 works of mountaineering fiction plus journals and bibliographies

Longs Peak Dougald MacDonald, 2004 Avid climber Dougald MacDonald has gathered histories hair raising tales and personal journeys to tell of this prominent peak in the Rocky Mountain National Park Reflections on mountaineering geology and wildlife are presented with historic images and gorgeous full color contemporary photography The ten best hiking and climbing routes plus See It Yourself activities offer great ways for both novices and seasoned climbers to explore the great mountain **A.L.A.
