Foundations of Airline Finance Bijan Vasigh, 2014-11-13

In recent years the airline industry has experienced severe volatility in earnings with airlines recording periods of substantial profits that are closely followed by periods of financial distress. This trend has continued into the new millennium with numerous examples of airlines across the globe entering bankruptcy protection or liquidating. The text provides an introduction to both the basics of finance and the particular intricacies of airline finance where there can be significant fluctuations in both revenues and costs. This new edition also includes capital budgeting management of current assets financial risk analysis fuel hedging aircraft leasing. This textbook contains chapters that cover unique aspects of the aviation financial decision making process. These include a rigorous and structured presentation of the buy versus lease decision that is prevalent in the industry a valuation process for aviation assets the recent trend toward privatization and the difficulty inherent in the valuation of a publicly owned or semi publicly owned asset. The *Foundations of Airline Finance* now in its second edition is an introductory text that can be used either as a general financial text or in a specialized class that deals with aviation finance in particular

Financial Management for Decision Makers Peter Atrill, 2019-12-16

Now in its ninth edition *Financial Management for Decision Makers* provides students with a unique focus on the practical application of financial management and its role in decision making. Covering topics such as financial planning making capital investment decisions and financing a small business it provides an ideal introduction to the world of financial management. New to this edition A new chapter on international aspects of financial management which explores the benefits and problems associated with internationalisation and the management of foreign exchange risk. Updated explanations throughout including greater coverage of behavioural finance and share valuation methods. Increased number of activities giving more opportunities to engage with the key concepts. Updated Real World examples which provide connections between the theory and practice of financial decision making. This text is ideal for undergraduates from a non accounting or non finance discipline taking an introductory module in financial management. It is also suitable for postgraduate students enrolled on certificate and diploma courses in financial management as well as those enrolled on Diploma in Management Studies and MBA programmes. The text can also be used by finance and accounting students as a foundation for further study. A suite of resources are also available and accompany this text. For instructors Solution's manual and PowerPoint slides. For students Opportunities to practise and additional support given through a companion website. The textbook integrates financial management business

policy and management function and places emphasis on the integration of the finance function within the context of managerial decision making and business planning It also helps students to understand why sometimes theory and practice differ Activities within the main text are inserted at appropriate points and Real World examples introduce readers to real life scenarios and offer an opportunity to apply financial management theory and techniques Dr Kalsoom Jaffar Lecturer and Course Director for BSc Finance Aston University Peter Atrill is a freelance academic who has worked with leading institutions in the UK Europe and SE Asia He was formerly the Head of Business and Management and Head of Accounting and Law at Plymouth Business School Plymouth University **The Cumulative Book Index** ,1996 A world list of books in the English language Economic and Financial Analysis for Criminal Justice Organizations Daniel Adrian Doss,William H.
