Routledge Encyclopedia of Narrative Theory David Herman, Manfred Jahn, Marie-Laure Ryan, 2010-06-10 The past several decades have seen an explosion of interest in narrative with this multifaceted object of inquiry becoming a central concern in a wide range of disciplinary fields and research contexts As accounts of what happened to particular people in particular circumstances and with specific consequences stories have come to be viewed as a basic human strategy for coming to terms with time process and change However the very predominance of narrative as a focus of interest across multiple disciplines makes it imperative for scholars teachers and students to have access to a comprehensive reference resource

Routledge Encyclopedia of Narrative Theory David Herman, 2011 **Routledge Encyclopedia of Narrative Theory** David Herman, Manfred Jahn, Marie-Laure Ryan, 2011 Routledge Encyclopedia of Narrative Theory David Herman, Manfred Jahn, Marie-Laure Ryan, 2005 Arranged in an A Z format this is a comprehensive reference resource for scholars teachers and students of narrative theory

Narrative Theory Kent Puckett, 2016-11-07 Kent Puckett s *Narrative Theory A Critical Introduction* provides an account of a methodology increasingly central to literary studies film studies history psychology and beyond In addition to introducing readers to some of the field s major figures and their ideas Puckett situates critical and philosophical approaches towards narrative within a longer intellectual history The book reveals one of narrative theory s founding claims that narratives need to be understood in terms of a formal relation between story and discourse between what they narrate and how they narrate it both as a necessary methodological distinction and as a problem characteristic of modern thought Puckett thus shows that narrative theory is not only a powerful descriptive system but also a complex and sometimes ironic form of critique *Narrative Theory* offers readers an introduction to the field s key figures methods and ideas and it also reveals that field as unexpectedly central to the history of ideas Phantom Sentences Robert S. Kawashima, Gilles Philippe, Thelma Sowley, 2008 Ann Banfield professor in the Department of English at the University of California Berkeley is best known for her groundbreaking contributions to narrative theory Working within the paradigm of generative linguistics she argued that the language of fiction is characterized by two unspeakable sentences i e sentences that do not properly occur in the spoken language the sentence of pure narration and the sentence of represented speech and thought style indirect libre or erlebte Rede More recently Banfield offered a major reconsideration of the novels of Virginia Woolf and modernism in light of the philosophy of knowledge developed by G E Moore and Bertrand Russell and appropriated by Roger Fry in his critical analyses of impressionism and post impressionism The essays gathered here pay tribute to Banfield by addressing those disciplines and topics most closely related to her work including narrative theory and pragmatics the philosophy of language and knowledge generative syntax meter and phonology and modernism Narrative Factuality Monika Fludernik, Marie-Laure Ryan, 2019-12-16 The study of narrative the object of the rapidly growing discipline of narratology has been traditionally concerned with the fictional narratives of literature such as novels or short stories But

narrative is a transdisciplinary and transmedial concept whose manifestations encompass both the fictional and the factual In this volume which provides a companion piece to Tobias Klauk and Tilmann Koppes *Fiktionalität Ein interdisziplinäres Handbuch* the use of narrative to convey true and reliable information is systematically explored across media cultures and disciplines as well as in its narratological stylistic philosophical and rhetorical dimensions At a time when the notion of truth has come under attack it is imperative to reaffirm the commitment to facts of certain types of narrative and to examine critically the foundations of this commitment But because it takes a background for a figure to emerge clearly this book will also explore nonfactual types of narratives thereby providing insights into the nature of narrative fiction that could not be reached from the narrowly literary perspective of early narratology

Unnatural Narratives - Unnatural Narratology

Jan Alber, Rüdiger Heinze, 2011-09-29 In recent years the study of unnatural narratives has become an exciting new but still disparate research program in narrative theory For the first time this collection of essays presents and discusses the new analytical tools that have so far been developed on the basis of unnatural novels short stories and plays and extends these findings through analyses of testimonies comics graphic novels films and oral narratives Many narratives do not only mimetically reproduce the world as we know it but confront us with strange narrative worlds which rely on principles that have very little to do with the actual world around us The essays in this collection develop new narratological tools and modeling systems which are designed to capture the strangeness and extravagance of such anti realist narratives Taken together the essays offer a systematic investigation of anti mimetic techniques and strategies that relate to different narrative parameters different media and different periods within literary history

Conceptualizing Cultural

Hybridization Philipp Wolfgang Stockhammer, 2011-09-18 Within the context of globalization cultural transformations are increasingly analyzed as hybridization processes Hybridity itself however is often treated as a specifically post colonial phenomenon The contributors in this volume assume the historicity of transcultural flows and entanglements they consider the resulting transformative powers to be a basic feature of cultural change By juxtaposing different notions of hybridization and specific methodologies as they appear in the various disciplines this volume's design is transdisciplinary Each author presents a disciplinary concept of hybridization and shows how it operates in specific case studies The aim is to generate a transdisciplinary perception of hybridity that paves the way for a wider application of this crucial concept

Turning

Points Ansgar Nünning, Kai Marcel Sicks, 2012-10-30 At times of crisis and revolution such as ours diagnoses of crucial junctures and ruptures turning points in the continuous flow of history are more prevalent than ever Analysing literary cinematic and other narratives the volume seeks to understand the meanings conveyed by different concepts of turning points the alternative concepts to which they are opposed when used to explain historical change and those contexts in which they are unmasked as false and over simplifying constructions Literature and film in particular stress the importance of turning points as a sensemaking device as part of a character's or a community's cultural memory while at the same time

unfolding the constructive and hence relative character of turning points Offering complex reflections on the notion of turning points literary and filmic narratives are thus of particular interest to the present volume

The Old Testament as Literature (Approaching the Old Testament) Tremper Longman, III, 2024-06-25 Tremper Longman has studied and taught the Old Testament and its interpretation for four decades Now in a planned three book project he presents his mature thoughts on three ways of approaching the Old Testament text as literature as history and as a source of theology This first volume explores the importance of reading the Old Testament as literature Each culture tells its stories and writes its poems in different ways To read and understand the Old Testament texts the way the ancient authors intended we need to be aware of the conventions of Hebrew storytelling and poetry that they used In part 1 dealing with literary theory Longman investigates how texts create meaning the history of the study of the Old Testament as literature and how genre dictates reading strategy He explores the Hebrew conventions for both narrative and poetry in conversation with contemporary literary approaches Parts 2 and 3 delve into practice using the tools gained in part 1 to analyze and interpret a variety of Old Testament narratives and poetry Longman s accessible writing and balanced judgments make this book suitable for the classroom and the church

Storyworld Possible Selves María-Ángeles Martínez, 2018-03-05 This volume presents a multidisciplinary approach to narrative engagement within the paradigms of cognitive linguistics cognitive narratology and social psychology In their basic form storyworld possible selves or SPSs are blends resulting from the conceptual integration of an intra and an extra diegetic perspectivizer In written narratives SPS blends function as hybrid referents for a variety of inclusive and ambiguous linguistic expressions which are here explored from the standpoint of interactional cognitive linguistics as instances of SPS objectification and subjectification The model also draws on character construction and on the social psychology notions of self schemas and possible selves This allows an exploration of emotional responses to narratives not just in terms of empathy or sympathy towards fictional entities but also in terms of narrative ethics and of culturally determined and simultaneously idiosyncratic feelings of personal relevance and self transformation

What Happens When Nothing Happens Greice Schneider, 2016-06-30 Boredom and melancholy in the experience of reading Contemporary graphic novels show an interesting shift from the extraordinary to the ordinary in slice of life stories in which nothing happens Present day graphic accounts are inhabited by melancholic characters whining about the lack of meaning in life This book examines this intriguing transition and brings a historical aesthetical and narratological approach to comics in which boredom is not only a topic but also awakens a deliberate affective response in the very experience of reading This volume brings together close readings of work by Lewis Trondheim Chris Ware and Adrian Tomine With a foreword by Raphaël Baroni University of Lausanne

Jason Coker, Scott S. Elliott, 2020-11-13 Inspired by and engaging with the provocative and prolific work of Stephen D Moore Bible and Theory showcases some of the most current thinking emerging at the intersections of critical methods with biblical texts The result is a plurality of readings that deconstruct customary disciplinary boundaries These chapters written by a wide range of biblical scholars collectively argue by demonstration for the necessity and benefits of biblical criticism inflected with queer theory literary criticism postmodernism cultural studies and more Bible and Theory Essays in Biblical Interpretation in Honor of Stephen D Moore invites the reader to rethink what constitutes the Bible and to reconsider what we are doing when we read and interpret it Animal Narratology Joela Jacobs, 2020-12-15 Animal Narratology interrogates what it means to narrate to speak speak for on behalf of and to voice or represent life beyond the human which is in itself as different as insects bears and dogs are from each other and yet more as individual as a single mouse horse or puma The varied contributions to this interdisciplinary Special Issue highlight assumptions about the human perception of attitude toward and responsibility for the animals that are read and written about thus demonstrating that just as the animal does not exist neither does the human In their zoopoetic focus the analyses are aware that animal narratology ultimately always contains an approximation of an animal perspective in human terms and terminology yet they make clear that what matters is how the animal is approximated and that there is an effort to approach and encounter the non human in the first place Many of the analyses come to the conclusion that literary animals give readers the opportunity to expand their own points of view both on themselves and others by adopting another s perspective to the degree that such an endeavor is possible Ultimately the contributions call for a recognition of the many spaces moments and modes in which human lives are entangled with those of animals one of which is located within the creative bounds of storytelling Narratology Genevieve Liveley, 2019-03-28 This volume explores the extraordinary contribution that classical poetics has made to twentieth and twenty first century theories of narrative aiming not to argue that modern narratologies simply present old wine in new wineskins but rather to identify the diachronic affinities shared between ancient and modern stories about storytelling By recognizing that modern narratologists bring a particular expertise to bear upon ancient literary theory and by interrogating ancient and modern narratologies through the mutually imbricating dynamics of their reception it seeks to arrive at a better understanding of both Each chapter selects a key moment in the history of narratology on which to focus providing an overview of significant phases before offering detailed analyses of core theories and texts from the Russian formalists and Chicago school neo Aristotelians through the prestructuralists structuralists and poststructuralists up to the latest unnatural and antimimetic narratologists The reception history that thus unfolds offers some remarkable plot twists and yields valuable insights into the interpretation of some notoriously difficult ancient works

Plato in the Republic is unmasked as an unreliable narrator and theorist while Aristotle's On Poets reveals a rare glimpse of the philosopher putting narrative theory into practice in the role of storyteller Horace's Ars Poetica and the works of ancient scholia by critics and commentators evince a rhetorically conceived poetics and sophisticated reader response based narratology which indicate a keen interest in audience affect and cognition anticipating the cognitive turn in narratology's most recent postclassical phase
