It offers a concise but broad and informative view of the disorder and can serve as an easy to read and access primary text. 4 Stars Doody's Reviews. Now completely revised and updated, *Manual of Traumatic Brain Injury Assessment and Management, Second Edition* is a comprehensive evidence based guide to brain injury diagnosis, treatment and recovery delivered in a succinct format designed for targeted access to essential content. This concise text featuring internationally known contributors drawn from leading TBI programs is organized into five sections. Part 1 discusses fundamental concepts needed to provide a context for clinical decision making. Part 2 covers mild TBI from natural history to sports related concussion, post concussion syndrome and more. Part 3 focuses on moderate to severe TBI and contains chapters on pre hospital emergency and ICU care, rehabilitation, community reintegration, management of associated impairments and post injury outcomes. Part 4 covers the complications and long term sequelae that may arise in patients with TBI including spasticity, movement disorders, posttraumatic seizures, hydrocephalus, behavioral and sleep disturbances and chronic traumatic encephalopathy (CTE). Part 5 focuses on special considerations and resources including issues specific to selected populations or injury environments: military, pediatric, workers compensation and older patients as well as return to work and medico legal issues in TBI. Comprehensively updated to reflect the current state of the art in this rapidly evolving field, this book is a must have for neurologists, physiatrists, primary care physicians, mental health professionals, social workers and other healthcare providers who treat TBI patients. New to the Second Edition: Key Points section in each chapter crystallizes important clinical pearls. New chapters cover anoxia complicating TBI, screening for emotional distress in TBI patients, management of chronic behavioral disturbances and assistive technology. Every chapter has been updated to reflect current evidence based practice.
