*The Hidden Face* Ida Friederike Görres, 2009-09-03 This study of the life and character of Therese of Lisieux is a remarkable penetrating and fascinating search for the truth behind one of the most astounding religious figures of modern times A young nun who entered a convent at fifteen and died at twenty four ThTrFse roused an incredible storm of spontaneous veneration only a few months after her death and has been called by one Pope as the greatest saint of the modern times Countless images of the sweetly smiling saint flooded the world But who was she really The Hidden Face has sprung from this question It presents the true Therese as objectively as possible and gives a convincing interpretation of her sainthood It is a book not for Catholics alone but for anyone fascinated by the force of spirituality by the incalculable effects of what Pascal called the greatness of the human soul It opens the cloistered world of the Carmel takes off the sugar coating and reveals the stark drama behind convent walls the tension between personalities the daily details of conventual life And it throws light on the tremendous purifying process that turned the pampered darling into a saint of heroic virtue The work of a mind of rare intelligence and integrity this book is unique among the lives of saints First published in Germany in 1944 the original is now in its eighth edition This first English translation is based on a new revised version using the latest edition of the saint's writings Ida Friederike Goerres is the author of several outstanding works on sanctity including *The Nature of Sanctity* and *The Cloister and the World* The Hidden Face is considered her most important work **Face it** Polycarp, 2012

The articles in this volume employ source work research to trace Kierkegaard's understanding and use of authors from the Greek tradition A series of figures of varying importance in Kierkegaard's authorship are treated ranging from early Greek poets to late Classical philosophical schools In general it can be said that the Greeks collectively constitute one of the single most important body of sources for Kierkegaard's thought He studied Greek from an early age and was profoundly inspired by what might be called the Greek spirit Although he is generally considered a Christian thinker he was nonetheless consistently drawn back to the Greeks for ideas and impulses on any number of topics He frequently contrasts ancient Greek philosophy with its emphasis on the lived experience of the individual in daily life with the abstract German philosophy that was in vogue during his own time It has been argued that he modeled his work on that of the ancient Greek thinkers specifically in order to

contrast his own activity with that of his contemporaries
