Focus on the Family with Dr. James C. Dobson, 1999 *Progressive Sexuality Education* Mary Lou

Rasmussen, 2015-10-05 This book engages contemporary debates about the notion of secularism outside of the field of education in order to consider how secularism shapes the formation of progressive sexuality education Focusing on the US Canada Ireland Aotearoa New Zealand and Australia this text considers the affinities prejudices and attachments of scholars who advocate secular worldviews in the context of sexuality education and some of the consequences that ensue from these ways of seeing This study identifies and interrogates how secularism infuses progressive sexuality education It asks readers to consider their own investments in particular ways of thinking and researching in the field of sexuality education and to think about how these investments have developed and how they shape existing discourses within the field of sexuality education It hones in on how progressive sexuality education has come to develop in the way that it has and how this relates to conceits of secularism This book prompts a consideration of how progressive scholarship and practice might get in the way of meaningful conversations with students teachers and peers who think differently about the field of sexuality education

Breaking the Silence Ellen Grünkemeier, 2013 South Africa is one of the countries in the world most affected by HIV AIDS and yet until recently the epidemic was barely visible in South African literature Much can be gained from approaching the South African epidemic through creative texts such as novels photographs films cartoons and murals because they produce and circulate meanings of HIV AIDS and its various facets such as its origin transmission routes and physical manifestations Other aspects explored are the denial of HIV AIDS its stigmatisation discriminatory practices modes of disclosure access to anti retroviral medication as well as the role of alternative treatment Creative texts which are open to different and possibly contradictory readings can serve as a starting point to increase the cultural visibility of the virus and to challenge dominant ideas about the epidemic The cultural constructions of HIV AIDS should be carefully examined because the meanings are pervasive and have very real consequences they play a powerful role both in determining which issues receive attention and in shaping public understanding of the virus **Define the Relationship** Jeramy Clark, Jerusha
