Oxford English Guide Class 1

Bethan Marshall

Oxford English Guide Class 1:

English Teachers - The Unofficial Guide Bethan Marshall, 2014-05-01 Bethan Marshall traces the competing traditions of English teaching and considers their relevance to the current debate through an analysis of English teachers' views about themselves and their subject. The findings are based on a highly original research method in which teachers were asked to respond to and comment upon five different descriptions of their approaches to English teaching. *English Teachers The Unofficial Guide* contextualises current debates about English teaching within the subject's contested history, provides a vehicle for teachers to reflect on their own practice and locate themselves within the debate, opens up the debate on assessment practices within English teaching. The Cambridge Guide to Learning English as a Second Language Anne Burns, Jack C. Richards, 2018-03-15 This volume provides an up-to-date and comprehensive coverage of second language learning. The focus throughout the book is primarily on language learning, but each chapter also discusses the implications for teaching and assessment, thus informing both understanding and practice. The book contains nine sections which aim to organise and reflect different dimensions of the diverse and complex scope of learning English as a second or additional language. Four themes which permeate the chapters are learning and learners, learning and language, learning and language development, learning and learning context. The 36 chapters are up-to-date and authoritative, written by experts in the field. The content is accessibly written with questions for discussion and follow-up reading suggestions provided. A Historical Guide to Joseph Conrad John Peters, 2010 Joseph Conrad achieved worldwide literary renown in his third language. The past two decades have seen historic change in the field of language learning materials development. The four main drivers of that change include a shift in emphasis from materials for language teaching to language learning, evidenced-based development, the huge increase in digital delivery technologies and the wedding of materials developed for the learning of English with those for other second or foreign languages.
