Resources in Education ,2001-04 Journal of Education and School World ,1883 Graduate Studies .1994 Improving Opportunities to Engage in Learning Nalita James, Hugh Busher, 2018-05-20 Improving Opportunities to Engage in Learning investigates the experiences of mature adult learners returning to formal education The book challenges the policy discourses in which Access to Higher Education survives by suggesting that continuing education is more about determination by students to alter their identities and career opportunities than meeting narrow performative criteria of financial targets Chapters explore students struggles with institutional and social structures in the current political and socio economic climate before identifying how the transformation of their learner identities is facilitated in the courses by collaborative cultures and supportive tutors. The book addresses a research gap in knowledge about students and tutors experiences of Access to Higher Education courses presenting a broad perspective on the importance and difficulties of such courses through listening to the voices of students and tutors undertaking a variety of Access to HE pathways The authors argue that despite success on their courses benefiting the national economy as well as students individually the social and financial costs of continuing education is almost entirely shifted onto students shoulders by policymakers Despite the costs students can still see Access to HE as a chance to improve their lives reflecting the neoliberal discourse of personal responsibility and risk embedded in broader national social and policy discourses Improving Opportunities to Engage in Learning will be of great interest to researchers academics and postgraduate students in the fields of further and higher education widening participation social justice and sociology of education and education policy and politics Canadian Books in Print. Paul Harris, 2017-05-15 During the Allied victory celebrations there were few who chose to raise a glass to the staff The high cost of casualties endured by the British army tarnished the reputation of the military planners which has yet to recover This book examines the work and development of the staff of the British army during the First World War and its critical role in the military leadership team Their effectiveness was germane to the outcome of events in the front line but not enough consideration has been paid to this level of command and control which has largely been overshadowed by the debate over generalship This has painted an incomplete picture of the command function Characterised as arrogant remote and out of touch with the realities of the front line the staff have been held responsible for the mismanagement of the war effort and profligate loss of lives in futile offensives This book takes a different view By using their letters and diaries it reveals fresh insights into their experience of the war It shows that the staff made frequent visits to the front line and were no strangers to combat or hostile fire Their work is also compared with their counterparts in the French and German armies highlighting differences in practice and approach In so doing this study throws new light upon the characteristics careers and working lives of these officers investigating the ways in which they both embraced and resisted change This offers evidence both for those who wish to exonerate the British command system on the basis of the learning process but also for those critical of its performance thus advancing understanding of British military history in the First World War Pacific Youth Helen Lee, 2019-10-31 Pacific populations are becoming younger and this youth bulge is often perceived as a dangerous precursor to civil unrest Yet young people are also a valuable resource holding exciting potential for the future of island nations Addressing these conflicting views of youth this volume presents ethnographic case studies of young people from across the Pacific and the diaspora Moving beyond the typical focus on youth problems in reports by Pacific governments and development agencies the authors examine the highly diverse lives and perspectives of young people in urban and rural locations They celebrate the contributions of youth to their communities while examining the challenges they face The case studies explore the impacts of profound local and global changes and cover a wide sweep of youth experiences across themes of education employment and economic inequalities political and civil engagement and migration and the diaspora Contributors to this volume bring many decades of experience of research with Pacific people as well as fresh perspectives from early career and graduate researchers Most are anthropologists and their chapters contribute to the interdisciplinary fields of youth studies and Pacific studies offering thought provoking insights into the possibilities for Pacific youth as they face uncertain futures Preparing for the BMAT Nick Sample, Isabel Thomas, 2005 Helps students to develop the thinking skills required for success in the BMAT which is required by seven universities for entrance onto competitive courses such as medicine and veterinary science The British National Bibliography Arthur James Wells, 2003 **Higher Education in the UK.** ,1995 Canadian Books in Print .2003 Resources in Education .1996 **British Music Education** Yearbook ,1990 Directory of Postgraduate Studies 2002 Hobsons Publishing, PLC, 2001 **Which Degree Directory**
