Andrew Melville Paterson

Pogil Nerve Structure:

The Fine Structure of the Nervous System Alan Peters, Sanford L. Palay, Henry deF. Webster, 1991 This book represents the most complete and authoritative description on the fine structure of the nervous system available in a single volume Beginning with background material on the neuron the book then examines specific portions of the nerve cell and of the various supporting cells Structure is first described in a general fashion followed by detailed coverage of the fine structure of each component with full discussion of how the structural features relate to their functions Extensively revised and rewritten this book will bring readers up to date with the many important developments that have taken place since publication of the previous edition It includes over 130 electron micrographs and line drawings many of which are new to this edition

The Human Nervous System Charles Robert Noback, 1967 The Human Nervous System Charles R. Noback, David A. Ruggiero, Norman L. Strominger, Robert J. Demarest, 2005 In this work the authors integrate three major basic themes of neuroscience to serve as an introduction and review of the subject
