**Athletic Director's Desk Reference** Donna A. Lopiano, Connee Zotos, 2013-11-19 Athletic Director's Desk Reference With Web Resource is the most authoritative and comprehensive resource available for collegiate athletic administrators. Loaded with practical tools, this resource guides program administrators in navigating their increasingly complex roles in athletic programs of any size. With this reference, administrators will confidently handle typical and unexpected situations and address the various policy and system needs required for running a successful athletic program. Authors Lopiano and Zotos, well known and respected for their contributions to collegiate and scholastic athletics, guide readers with more than 75 combined years of experience as athletic program administrators, coaches, and consultants. Complete with a practical web resource, Athletic Director's Desk Reference offers extensive advice and tools for today's athletic director, covering leadership and organizational planning, office and facilities operations, staff management, student athlete relations, team administration, event management, fundraising, media relations, and more. Both the print and e-book versions of Athletic Director's Desk Reference help readers quickly find the materials and information required for performing specific tasks or functions. They include numbered contents and cross references to the web resource, allowing readers to move seamlessly between the two. This comprehensive resource includes more than 120 management tips and planning tools in the book that provide expert insights and strategic advice, and more than 340 documents in the web resource that can be downloaded and customized to meet the needs of each athletic program. Management tips in the book present foundational information, problem-solving strategies, and suggestions for management of employees, programs, events, and facilities. Planning tools in the book provide specific steps or considerations to take in the development of strategic plans, action plans, professional development plans, and governance systems. Educational resources in the web resource can be used for teaching and motivating staff members, campus constituents, volunteers, and student athletes. Evaluation instruments and risk assessments in the web resource help directors, supervisors, and employees assess job performance, evaluate program contents, identify risks, and prevent litigation. Policies and forms in the web resource allow athletic directors to produce effective policies and procedures with only simple modifications and customizations. The engaging narrative, philosophies, and advice from seasoned professionals, combined with customizable and practical materials, make this a unique and essential reference for athletic directors of all levels and abilities. Athletic Director's Desk Reference empowers administrators to confront issues and lead with confidence while saving time and research. As a result, athletic directors will become more efficient, more effective, more mission-driven, and more successful in virtually any task, decision, or strategy.

**Emergency Research Ethics** A.M. Viens, 2017-03-02 The essays selected for this volume focus on issues that arise when attempting to design, review, and undertake research involving human participants who are experiencing a private or public emergency. The Judge and the Proportionate Use of Discretion Sofia Ranchordás, Boudewijn de Waard, 2015-06-12 This book examines different legal systems and analyses how the judge in each of them performs a meaningful review of the proportional use of discretionary powers by public bodies Although the proportionality test is not equally deep rooted in the literature and case law of France Germany the Netherlands and the United Kingdom this principle has assumed an increasing importance partly due to the influence of the European Court of Justice and European Court of

Human Rights In the United States different standards of judicial review are applied to review arbitrary and capricious agency discretion However do US judges achieve a similar result to the proportionality or reasonableness test Drawing together a selection of key experts in the field this book analyses the principle of proportionality in the judicial review of administrative decisions from different perspectives The principle is first examined in the context of recent developments in the literature and case law including the inevitable EU influence then light shall be shed on the meaning of this principle in the specific case law of the European Court of Justice and European Court of Human Rights Finally the authors go on to explore the ways in which US judges consciously sanction the disproportionate and or unreasonable use of agency discretion In the legal systems where the proportionality test plays a very limited role Ranchord s and de Waard also try to clarify why this is the case and look at what alternative solutions have been found This book will be of great interest to scholars of public and administrative law and EU law
