domestic interests Conversely American uses of Vietnamese craft provide an example of how the United States aimed to absorb post colonial South Vietnam into the Free World in a Cold War context of American anxiety about communism spreading throughout Southeast Asia Way focuses in particular on the part played by the renowned American designer Russel Wright contracted by the US International Cooperation Administration s aid programs for South Vietnam to survey the craft industry in South Vietnam and manage its production distribution and consumption abroad and at home Way shows how Wright and his staff brought American ideas about Vietnamese history and culture to bear in managing the making of Vietnamese craft

The Politics of South African Cricket Jon Gemmell,2004-03-31 The Politics of South African Cricket analyses the relationship between politics and sport in particular cricket in South Africa South African Cricket embraces an ethos that is symbolic of a wider held belief system and as such has distinctive political connotations in the region Sport in South Africa is certainly influenced by forces beyond the playing field but politics too can be influenced by the social and economic force of sport Focusing on the sports boycott as a political strategy Jon Gemmell analyses the relationship between sport and politics through a historical analysis of South African cricket He employs case studies to explore the relationship between politics and South African cricket and argues convincingly that cricket assisted the reform process by undermining the legitimacy of the apartheid regime

The Failure of Socialism in South Korea Yunjong Kim,2015-07-03 Despite the fact that socialist parties have proved to be a major political force across the world this has not been the case in Asian countries Socialism in South Korea is a quintessential example of this failure Despite the existence of a socialist party and what would seem to be the right conditions for development the Korean socialist tendency has failed to become a meaningful force in politics This book explores why and under what conditions Korean socialism has failed to develop into a social democrat movement in the post war period Within the context of the integration of structural and agency factors it goes beyond the generally accepted view that the left failed because of suppression by the state and proffers that the real reason why socialism failed lay with its inability to develop beyond revolutionary socialism and build a more pragmatic social democracy that could develop a broad alliance within Korean society Also drawing on examples from Western Europe and Latin America where left wing forces have achieved power this book will be of huge interest not only to

students and scholars of Asian and Korean politics but also socialism comparative and international politics alike
