Pollen Jeff Noon:

Pollen Jeff Noon, 1996 The bestselling author of Vurt spins another audaciously inventive tales of reality gone soft and dreams become real As an enormous cloud of pollen descends upon a city people begin to literally sneeze themselves to death When a cop one of the few who is immune sets out to find the source of the plague what she discovers will forever alter the ancient relationship between people and the myths they create to make sense of the world *Pollen* Jeff

Noon, 2025-12-02 The 30th anniversary reissue of the acclaimed sequel to Jeff Noon's Vurt A second key piece of the SF canon from an author who has found new readers with Gogmagog and Ludluda A nightmare trip into a Manchester overwhelmed by an alien hay fever Flowers in the rain indeed Big jump in the grain count I can hear them jumping This old hippy is sneezing already Ya Ya The flowers are spurting pollen all over the Manchester map Gumbo never seen such a giant golden step before In a strange re mixed future Manchester a cloud of Pollen descends a new strain each tiny grain a murderer Within days the streets of the city are overgrown with vicious blooms as the fiercest hay fever epidemic of all time takes hold People are sneezing themselves to death and the pollen count is racing towards 2 000 But a small percentage of the population are immune to the fever Two of them shadow cop Sibyl Jones and her wayward daughter Boda are on separate path into the dark place from where the pollen originates What they find there will change their lives together Only they can save the city Bless you **Jeff Noon's "Vurt"** Andrew C. Wenaus, 2022-08-01 This book offers an examination of Jeff Noon's

iconoclastic debut novel Vurt 1993 In this first book length study of the novel which includes an extended interview with Noon Wenaus considers how Vurt complicates the process of literary canonization its constructivist relationship to genre its violent and oneiric setting of Manchester its use of the Orphic myth as an archetype for the practice of literary collage and musical remix and how the structural paradoxes of chaos and fractal geometry inform the novel's content form and theme Finally Wenaus makes the case for Vurt's ongoing relevance in the 21st century an era increasingly characterized by neuro totalitarianism psychopolitics and digital surveillance With Vurt Noon begins his project of rupturing feedback loops of control by breaking narrative habits and embracing the contingent and unpredictable An inventive energetic and

heartbreaking novel Vurt is also an optimistic and heartfelt call for artists to actively create open futures **Mappalujo** Jeff Noon, Steve Beard, 2016-05-05 Mappalujo is a shared dream set in the twilight realm of Lujo a city dominated by the surreal cartoons and artificially bred toy creatures of the Zeno Entertainment Company Since the company's founder died in mysterious circumstances Zeno's visions have become darker and even more sinister An identity altering drug is leaking onto the streets For a few brilliant flickering moments users are transformed into famous or infamous celebrities only to find that the other side of fame lies in the gutter or in death The novel follows a lowly salesman an information gatherer a private detective and a teenage psychic Four stories four people each of them connected to the bizarre fate of Zeno its bitter heir and a hostile faery spirit named Mama Lujo Here is one city's epic tale told in seventy five chapters each influenced by a

different iconic figure From Lewis Carroll to Patti Smith from Sigmund Freud to Raymond Chandler and Sophie Calle the ghosts haunting the streets of Lujo are all conjured from the collective unconscious of the modern media age **The Best Novels of the Nineties** Linda Parent Leshner,2015-11-17 This reader's guide provides uniquely organized and up to date information on the most important and enjoyable contemporary English language novels Offering critically substantiated reading recommendations careful cross referencing and extensive indexing this book is appropriate for both the weekend reader looking for the best new mystery and the full time graduate student hoping to survey the latest in magical realism More than 1 000 titles are included each entry citing major reviews and giving a brief description for each book

Dancefloor-Driven Literature Simon A. Morrison,2020-05-14 Almost as soon as club culture took hold during the UK's Second Summer of Love in 1988 its sociopolitical impact became clear with journalists filmmakers and authors all keen to use this cultural context as source material for their texts This book uses that electronic music subculture as a route into an analysis of these principally literary representations of a music culture why such secondary artefacts appear and what function they serve The book conceives of a new literary genre to accommodate these stories born of the dancefloor dancefloor driven literature Using interviews with Irvine Welsh author of Trainspotting 1994 alongside other dancefloor driven authors Nicholas Blincoe and Jeff Noon as case studies the book analyzes three separate ways writers draw on electronic dance music in their fictions interrogating that very particular intermedial intersection between the sonic and the linguistic It explores how such authors write about something so subterranean as the nightclub scene and analyses what specific literary techniques they deploy to write lucidly and fluidly about the metronomic beat of electronic music and the chemical accelerant that further alters that relationship **Slow Motion Ghosts** Jeff Noon,2019-01-24 Noon's storytelling is assured and compelling it's a belter Guardian Constantly surprising Spectator A viciously occult murder A curious clue left on the body The soundtrack to the murder still playing It is 1981 and Detective Inspector Henry Hobbes is still reeling in the aftermath of the fire and fury of the Brixton riots The battle lines of society and the police force are being redrawn on a daily basis With the certainties of his life already sorely tested a brutal murder will shake his beliefs to their very core once more The manner of the death and its staged circumstances pose many questions to which there are no obvious answers To track the murderer Hobbes must cross boundaries into a subculture hidden beneath the everyday world he thought he knew His investigation takes him into a twisted reality which is both seductive and devastating and asks him the one question he has been dreading How far will he go in pursuit of the truth Jeff Noon is the author of six acclaimed novels Vurt Pollen Automated Alice Nymphomation Needle in the Groove and Falling Out of Cars as well as two collections of short fictions and is also the crime fiction reviewer for The Spectator He lives in Brighton **Allergy** Mark Jackson,2007-08-15 Mark Jackson investigates how allergy has become the archetypal disease of civilization transforming from a fringe malady of the wealthy into one of the greatest medical disorders of the twentieth century **Botanical Architecture** Paul Dobraszczyk,2024-11-12 An

original call to reorient architecture around our relationship to plants When we look at trees we see a form of natural architecture and yet we have seemingly always exploited trees to make new buildings of our own Whereas a tree creates its own structure humans generally destroy other things to build with increasingly disastrous consequences In *Botanical Architecture* Paul Dobraszczyk looks closely at how elements of plants seeds roots trunks branches leaves flowers and canopies compare with and constitute human made buildings Given the omnipresence of plant life in and around our structures Dobraszczyk argues that we ought to build as much for plants as for ourselves understanding that our lives are always totally dependent on theirs *Botanical Architecture* offers a provocative and original take on the relationship between ecology and architecture

Beyond Cyberpunk Graham J. Murphy, Sherryl Vint, 2010-06-10 This book is a collection of essays that considers the continuing cultural relevance of the cyberpunk genre into the new millennium Cyberpunk is no longer an emergent phenomenon but in our digital age of CGI driven entertainment the information economy and globalized capital we have never more been in need of a fiction capable of engaging with a world shaped by information technology The essays in explore our cyberpunk realities to soberly reconsider Eighties era cyberpunk while also mapping contemporary cyberpunk The contributors seek to move beyond the narrow strictures of cyberpunk as defined in the Eighties and contribute to an ongoing discussion of how to negotiate exchanges among information technologies global capitalism and human social existence The essays offer a variety of perspectives on cyberpunk s diversity and how this sub genre remains relevant amidst its transformation from a print fiction genre into a more generalized set of cultural practices tackling the question of what it is that cyberpunk narratives continue to offer us in those intersections of literary cultural theoretical academic and technocultural environments
