The British Library general catalogue of printed books 1986 to 1987 British Library, 1988 Trauma, Memory, and Narrative in the Contemporary South African Novel ,2012-01-01 The contributions to this volume probe the complex relationship of trauma memory and narrative By looking at the South African situation through the lens of trauma they make clear how the psychic deformations and injuries left behind by racism and colonialism cannot be mended by material reparation or by simply reversing economic and political power structures Western trauma theories as developed by scholars such as Caruth van der Kolk Herman and others are insufficient for analysing the more complex situation in a postcolony such as South Africa This is because Western trauma concepts focus on the individual traumatized by a single identifiable event that causes PTSD Post Traumatic Stress Disorder What we need is an understanding of trauma that sees it not only as a result of an identifiable event but also as the consequence of an historical condition in the case of South Africa that of colonialism and more specifically of apartheid For most black and coloured South Africans the structural violence of apartheid s laws were the existential condition under which they had to exist The living conditions in the townships pass laws relocation and racial segregation affected great parts of the South African population and were responsible for the collective traumatization of several generations This trauma however is not an unclaimed and unclaimable experience Postcolonial thinkers who have been reflecting on the experience of violence and trauma in a colonial context writing from within a Fanonian tradition have on the contrary believed in the importance of reclaiming the past and of transcending mechanisms of victimization and resentment so typical of traumatized consciousnesses Narration and the novel have a decisive role to play here Drama ,1984 **The Institutionalisation of Disaster Risk Reduction** Gideon van Riet,2016-12-01 The past three decades have seen a global shift in disaster management from an event driven response to a could be risk management approach Disaster risk reduction DRR has become entrenched as a dominant paradigm within the field of disaster management More than a decade after adopting DRR legislation in South Africa there remains a dearth of evidence that this has translated into substantive action This book examines the institutionalisation of DRR in South Africa conceived of as a political economy of knowledge production Using a critical theory approach the book does not consider why DRR is failing but instead asks why DRR As such it explores possibilities beyond DRR s narrow optic and offers new insights into disaster management through the lens of South Africa This is valuable reading for graduate students and academics working in disaster studies geography public policy and development post development studies as well as policy makers **Literêre terme en teorieë** Theunis Theodorus Cloete,1992 Liter re terme en teorie is alfabeties gerangskik volgens hoofwoorde van Abele spel tot Wetenskapsfiksie Terme wat onder andere bespreek word is fabel klug legende metataal mite outobiografie postmodernisme sonnet sprokie en tragedie Aan die einde van die boek volg n uitgebreide trefwoordelys waarin die leser terme kan gaan soek wat nie in die alfabetiese deel voorkom nie Apartheid and Beyond Rita Barnard,2012-09-13
