first detailed account of how adventure fiction represented the Great War for British boys between 1914 and the end of the war Paris examines how such literature explained the causes of the war to boys and girls and how it encouraged young men to participate in the noble crusade on the Western Front and in other theaters He explores the imagery of the trenches the war in the air and the nature of war in the Middle East and Africa He also details the links between popular writers and the official literary propaganda campaign The study concludes by looking at how these heroic images remained in print enduring well into the inter war years
