1. What are the objectives for this experiment? (you can summarize)
2. Make a hypothesis about how you think the two species of <i>Paramecium</i> will grow alone and how they will grow when they are grown together. I think they both will grow more rapidly than together. Together they will overload the carrying capacity.
3. Explain how you tested your hypothesis. I ran three samples, each separate and then together, and test the growth rate every two days.
4. On what day did the <i>Paramecium caudatum</i> population reach the carrying capacity of the environment when it was grown alone? How do you know?

Futureface Alex Wagner, 2018-04-17. From the host of MSNBC's Alex Wagner. Tonight a rich and revealing memoir. The New York Times about her travels around the globe to solve the mystery of her ancestry, confronting the question at the heart of the American experience of immigration, race, and identity. Who are my people? A thoughtful, beautiful meditation on what makes us who we are and the values and ideals that bind us together as Americans. Barack Obama. The daughter of a Burmese mother and a white American father. Alex Wagner grew up thinking of herself as a futureface, an avatar of a mixed-race future when all races would merge into a brown singularity. But when one family mystery leads to another, Wagner's post-racial ideals fray as she becomes obsessed with the specifics of her own family's racial and ethnic history. Drawn into the wild
